### **A Guide for Assessing Community Emergency Response Needs and Capabilities for Hazardous Materials**

**Releases** Battelle Memorial Institute, 2011 This Guide presents comprehensive step by step guidance on assessing hazardous materials emergency response needs at state regional and local levels matching state regional and local capabilities with potential emergencies involving different types of hazardous materials and assessing how quickly resources can be brought to bear in an emergency The methodology described in the Guide is designed to be scalable allowing the implementation results to be aggregated at the local level up through regional state and national levels Also the Guide is designed to connect as many components as possible to already established standards guidelines regulations and laws so that the Guide will remain current as these underlying components are updated In addition the Guide discusses appropriate means for maintaining currency of the information over time The Guide and accompanying spreadsheet tool on the attached CD ROM which leads planners through the assessment process will be most useful for local jurisdictions that have limited resources and expertise in hazardous materials emergency response planning Publisher s description

**Hazardous Material (HAZMAT) Life Cycle Management** Robert Jaffin, 2012-12-12 It is well known that fluorescent light bulbs and consumer appliances such as televisions computers and monitors contain mercury dangerous chemicals and other harmful components The existing literature on hazardous materials addresses the risks attached to specific materials and emphasizes compliance and personal protective equipment PPE but not the life cycle management of the materials that represent the hazards A logistics treatment of the subject is needed to understand the underlying supply chain management principles and apply solutions to reduce overall use of hazardous materials Hazardous Material HAZMAT Life Cycle Management Corporate Community and Organizational Planning and Preparedness is organized into two thematic sections Section I defines and classifies hazardous materials and covers the U S regulatory framework and standards governing the transport and use of such materials Section II examines institutional and organizational program elements and provides guidelines for developing these programs to reduce liability and risk while lowering point source pollution and total hazardous waste production The logistics approach to hazardous materials yields exponential benefits in costs and the reduction or elimination of such materials It limits organizational liability and at the same time reduces the costs associated with hazardous waste management and disposal This book serves as an integrative reference offering a better understanding of hazardous materials use life cycle management consumption and waste reduction at a holistic strategic level
