Coercion and Wage Labour Anamarija Batista, Viola Franziska Müller,Corinna Peres,2023-12-07 *Coercion and Wage Labour* presents novel histories of people who experienced physical social political or cultural compulsion in the course of paid work Broad in scope the chapters examine diverse areas of work including textile production war industries civil service and domestic labour in contexts from the Middle Ages to the present day They demonstrate that wages have consistently shaped working people s experiences and failed to protect workers from coercion Instead wages emerge as versatile tools to bind control and exploit workers Remuneration mirrors the distribution of power in labour relations often separating employers physically and emotionally from their employees and disguising

coercion The book makes historical narratives accessible for interdisciplinary audiences Most chapters are preceded by illustrations by artists invited to visually conceptualise the book's key messages and to emphasise the presence of the body and landscape in the realm of work In turn the chapter texts reflect back on the artworks creating an intense intermedial dialogue that offers mutually relational translations and narrations of labour coercion Other contributions written by art scholars discuss how coercion in remunerated labour is constructed and reflected in artistic practice The collection serves as an innovative and creative tool for teaching and raises awareness that narrating history is always contingent on the medium chosen and its inherent constraints and possibilities Praise for Coercion and Wage Labour Coercion and Wage Labour is a pioneering volume It makes a well founded break with the widespread misconception that wage labour is by definition free from coercion The fourteen historical case studies lead to the conclusion that wage labourers too were subject to many forms of coercion and that usually their freedom was and is only relative But something else makes this book special throughout the text there are artistic illustrations that enter into a dialogue with the individual chapters which in turn reflect on the images This creates an inspiring interaction that complements the volume's interdisciplinary nature Marcel van der Linden
