Use the answers while answering the questions in Chapter 1, write the answers, and complete the practice tests.

All answers available in **Answers**

After completion of this chapter, you should be able to:

1. Describe the components of a network.
 - a. Explain the physical and logical components of a network.
 - b. Explain how the physical components of a network are connected.
 - c. Explain how the logical components of a network are connected.
2. Explain the difference between a network and a LAN.
 - a. Explain the difference between a network and a LAN.
3. Explain the difference between a network and a WAN.
 - a. Explain the difference between a network and a WAN.
4. Explain the difference between a network and a MAN.
 - a. Explain the difference between a network and a MAN.
5. Explain the difference between a network and a SAN.
 - a. Explain the difference between a network and a SAN.
6. Explain the difference between a network and a VPN.
 - a. Explain the difference between a network and a VPN.
7. Explain the difference between a network and a cloud.
 - a. Explain the difference between a network and a cloud.
8. Explain the difference between a network and a data center.
 - a. Explain the difference between a network and a data center.
9. Explain the difference between a network and a server.
 - a. Explain the difference between a network and a server.
10. Explain the difference between a network and a client.
 - a. Explain the difference between a network and a client.
11. Explain the difference between a network and a router.
 - a. Explain the difference between a network and a router.
12. Explain the difference between a network and a switch.
 - a. Explain the difference between a network and a switch.
13. Explain the difference between a network and a firewall.
 - a. Explain the difference between a network and a firewall.
14. Explain the difference between a network and a proxy server.
 - a. Explain the difference between a network and a proxy server.
15. Explain the difference between a network and a DNS server.
 - a. Explain the difference between a network and a DNS server.
16. Explain the difference between a network and a DHCP server.
 - a. Explain the difference between a network and a DHCP server.
17. Explain the difference between a network and a web server.
 - a. Explain the difference between a network and a web server.
18. Explain the difference between a network and a mail server.
 - a. Explain the difference between a network and a mail server.
19. Explain the difference between a network and a database server.
 - a. Explain the difference between a network and a database server.
20. Explain the difference between a network and a backup server.
 - a. Explain the difference between a network and a backup server.
21. Explain the difference between a network and a storage server.
 - a. Explain the difference between a network and a storage server.
22. Explain the difference between a network and a search engine.
 - a. Explain the difference between a network and a search engine.
23. Explain the difference between a network and a social media platform.
 - a. Explain the difference between a network and a social media platform.
24. Explain the difference between a network and a video streaming service.
 - a. Explain the difference between a network and a video streaming service.
25. Explain the difference between a network and a music streaming service.
 - a. Explain the difference between a network and a music streaming service.
26. Explain the difference between a network and a cloud storage service.
 - a. Explain the difference between a network and a cloud storage service.
27. Explain the difference between a network and a virtualization platform.
 - a. Explain the difference between a network and a virtualization platform.
28. Explain the difference between a network and a containerization platform.
 - a. Explain the difference between a network and a containerization platform.
29. Explain the difference between a network and a DevOps platform.
 - a. Explain the difference between a network and a DevOps platform.
30. Explain the difference between a network and a CI/CD pipeline.
 - a. Explain the difference between a network and a CI/CD pipeline.
31. Explain the difference between a network and a microservices architecture.
 - a. Explain the difference between a network and a microservices architecture.
32. Explain the difference between a network and a serverless architecture.
 - a. Explain the difference between a network and a serverless architecture.
33. Explain the difference between a network and a hybrid cloud architecture.
 - a. Explain the difference between a network and a hybrid cloud architecture.
34. Explain the difference between a network and a multi-cloud architecture.
 - a. Explain the difference between a network and a multi-cloud architecture.
35. Explain the difference between a network and a SaaS architecture.
 - a. Explain the difference between a network and a SaaS architecture.
36. Explain the difference between a network and a PaaS architecture.
 - a. Explain the difference between a network and a PaaS architecture.
37. Explain the difference between a network and a IaaS architecture.
 - a. Explain the difference between a network and a IaaS architecture.
38. Explain the difference between a network and a FaaS architecture.
 - a. Explain the difference between a network and a FaaS architecture.
39. Explain the difference between a network and a Serverless architecture.
 - a. Explain the difference between a network and a Serverless architecture.
40. Explain the difference between a network and a Cloud-native architecture.
 - a. Explain the difference between a network and a Cloud-native architecture.
41. Explain the difference between a network and a Cloud-managed architecture.
 - a. Explain the difference between a network and a Cloud-managed architecture.
42. Explain the difference between a network and a Cloud-optimized architecture.
 - a. Explain the difference between a network and a Cloud-optimized architecture.
43. Explain the difference between a network and a Cloud-agnostic architecture.
 - a. Explain the difference between a network and a Cloud-agnostic architecture.
44. Explain the difference between a network and a Cloud-agnostic architecture.
 - a. Explain the difference between a network and a Cloud-agnostic architecture.

Network Fundamentals, CCNA Exploration Companion Guide Mark Dye, Richard McDonald, Antoon Ruffi, 2007-10-29
Network Fundamentals CCNA Exploration Companion Guide is the official supplemental textbook for the Network Fundamentals course in the Cisco Networking Academy CCNA Exploration curriculum version 4. The course, the first of four in the new curriculum, is based on a top-down approach to networking. The Companion Guide, written and edited by Networking Academy instructors, is designed as a portable desk reference to use anytime anywhere. The book's features reinforce the material in the course to help you focus on important concepts and organize your study time for exams. New and improved features help you study and succeed in this course: Chapter objectives: Review core concepts by answering the focus questions listed at the beginning of each chapter. Key terms: Refer to the updated lists of networking vocabulary introduced and highlighted in context in each chapter. Glossary: Consult the comprehensive glossary with more than 250 terms. Check Your Understanding questions and answer key: Evaluate your readiness with the updated end-of-chapter questions that match the style of questions you see on the online course quizzes. The answer key explains each answer. Challenge questions and activities: Strive to ace more challenging review questions and activities designed to prepare you for the complex styles of questions you might see on the CCNA exam. The answer key explains each answer. How To Look for this icon to study the steps you need to learn to perform certain tasks. Packet Tracer Activities: Explore networking concepts in activities interspersed throughout some chapters using Packet Tracer v4.1 developed by Cisco. The files for these activities are on the accompanying CD-ROM. Also available for the Network Fundamentals Course: Network Fundamentals CCNA Exploration Labs and Study Guide ISBN 10 1 58713 203 6 ISBN 13 978 1 58713 203 2 Companion CD-ROM.
