Klopfenstein, 1998* **Euler's number. Why is Euler's number "e" the basis of natural logarithm functions** Sumaanyu Maheshwari, 2016-11-30 Document from the year 2016 in the subject Mathematics Miscellaneous grade A course IB Math HL language English abstract When the concept of logarithms was first introduced to me a plethora of questions revolved around my mind My inquisitiveness compelled me to think and ask questions as to where are the practical applications of logarithms why do we take different bases of these functions and what is the need for natural logarithms Amongst these questions one particularly intrigued me why is e particularly the base of the natural logarithm Why out of all numbers that exist did we choose e as the base of the natural logarithm function I was fascinated by why taking the base e made the normal logarithm a natural logarithm Therefore to quench the curiosity of many others like me I will show through this paper that why e is the correct choice for the base of exponential and natural logarithm functions I shall also be exploring the most important property of e via this paper [Math Factor : Exponential and Logarithmic Functions](#) Mallett, Gordon George Burdett, Shannon, Marilyn, Alberta. Alberta Education, Alberta Educational Communications Corporation, Polei, Jerry, 1996 *Exponential and Logarithmic Functions* Joshua Graff, 2017 This curriculum projects covers both logarithmic and exponential functions There is a strong emphasis on applying logarithmic and exponential functions and not just rote memorization of rules to solve meaningless equations While there is some solving of equations without a context they are typically done in a more fun game like activity rather than the same old problem types that have been in textbooks for decades Whenever possible the functions are placed inside of a meaningful context where students can actually see the usefulness of logarithms and exponentials so that they will buy into

the idea of truly learning them This unit was designed with the thought of student buy in at the forefront of everything
