Montgomery,2024-07-09 A foundational figure in modern labor history David Montgomery both redefined and reoriented the field This collection of Montgomery's most important published and unpublished articles and essays draws from the historian's entire five decade career Taken together the writings trace the development of Montgomery's distinct voice and approach while providing a crucial window into an era that changed the ways scholars and the public understood working people's place in American history Three overarching themes and methods emerge from these essays that class provided a rich reservoir of ideas and strategies for workers to build movements aimed at claiming their democratic rights that capital endured with the power to manage the contours of economic life and the capacities of the state but that workers

repeatedly and creatively mounted challenges to the terms of life and work dictated by capital and that Montgomery's method grounded his gritty empiricism and the conceptual richness of his analysis in the intimate social relations of production and of community neighborhood and family life Small Business, Big Society Rupert Hodder, 2018-05-11 This book considers how small businesses stir up changes in social relationships and what these changes mean for wider society From this emerges a challenging and provocative discussion on the problems facing both the developing and developed worlds Development it argues is written into social relationships and growth follows attempts to avoid the market's degenerative effects What this discussion means for development practice and for thought in the social sciences more generally is also considered If there is a watchword for development practice then it is acceptance acceptance of more social less prescriptive and far more experimental modes of working As for the implications of these ideas for social science these may be described well enough as an economy of ontology **The Athenaeum** ,1862 *The American School Board Journal* ,1916 *The World Tomorrow* Norman Thomas, John Nevin Sayre, Devere Allen, Kirby Page, 1923 **The Illustrated London News** ,1858 *Gleanings in Bee Culture* ,1890 **Monthly Journal of Insurance Economics** ,1917
