

GATTACA Assignment Are your Genes your Destiny?

GATTACA is a film that shows a future society that is driven by rigorous assessment of everyone's potential. Most individuals in this society are genetically manipulated to have just those few highest-recommended genetic engineering proteins used to maximize intelligence. These ultra-advanced genetic engineering techniques had a little opportunity to occur. Biotechnology is approaching unprecedented possibilities in genetic and other fields and the potential abuse is enormous.

How does this relate to your course? I have selected your behavior/grades (genetic engineering) assignment as the right source of evidence that shows your intelligence that shows you're a right source for. Regarding the grade, you can still be successful even with your assigned (genetic) and possible success. You should be able to find the right evidence and examples and explain them in your paper. The right evidence is showing that you are intelligent and successful even though you are not genetically engineered to be so. (I have selected the right source for this assignment.)
