America's Moment Rework America, 2015-06-15 It is time for a new conversation Amid the biggest economic transformation in a century the challenge of our time is to make sure that all Americans benefit from the wave of digital revolutions around the world that have permeated and upended modern life Yet today's economic arguments seem stuck We need a new vision of a hopeful future and a new action agenda So many Americans are uncertain about the future How can there be so many paths to opportunity with so few people traveling them As a nation we have to understand what is required to help Americans succeed now and how to prepare our country for what comes next We have been here before A hundred years ago America experienced the greatest economic transformation and technological revolution in its history The transformation of the past twenty years as the world has moved through the information era into the digital age has turned our life and work upside down once again It is a time of tremendous change but also of tremendous possibility Rework America is a group of American leaders who know from experience the challenges we face and the potential solutions In America's Moment they suggest a practical agenda for an exciting future It is illustrated by people who are already showing the way and includes actions Americans can take today in their own communities preparing people to succeed using the reach of the Internet and data to innovate jobs and to reach new markets all over the world using technology to match employers and workers and transitioning to a no collar working world neither blue collar nor white collar Set against the history of how Americans succeeded once before in remaking their country America's Moment is about the future It describes how the same forces of change technology and a networked world can become tools that can open opportunity to everyone The United States Catalog, 1924 *Official Gazette of the United States Patent and Trademark Office*, 2003

State against Civil Society Cameron Ross, 2017-10-02 Over the period December 2011 July 2013 a tidal wave of mass protests swept through the Russian capital and engulfed scores of cities and regions These demonstrations came as a great shock to the Russian political establishment After decades of passive acceptance of the status quo it appeared that civil society was at last awakening The protests came in the wake of the Arab Spring revolts which toppled authoritarian dictators in Tunisia Egypt and Libya However by the end of 2013 the number of mass protests in Russia and their size had declined precipitously President Putin on returning to office in 2012 had quickly regained the upper hand over the protestors This book examines the reasons for the rise and fall of the mass protests in the Russian Federation Internationally renowned experts in the field of Russian politics from Russia and the UK provide important new insights into the nature of the mass opposition movement the non systemic opposition its strengths and its weaknesses A key novel aspect of the study is its focus on the national and regional dimensions of the protest movement and its class and ethnic dimensions This book was published as a special issue of *Europe Asia Studies* **Sessional Papers** Québec (Province). Legislature, 1905 **The Power of Geography (RLE Social & Cultural Geography)** Jennifer Wolch, Michael Dear, 2014-01-23 This book illuminates

the profound influence of geography on everyday life Concentrating on the realm of social reproduction gender family education culture and tradition race ethnicity the contributors provide both an articulation of a theory of territory and reproduction and concrete empirical analyses of the evolution of social practices in particular places At the core of the book s contribution is the concept of society as a time space fabric upon which are engraved the processes of political economic and socio cultural life A second distinctive feature of the book is its substantive focus on the relation between territory and social practice Thirdly it represents a significant step in the redefinition of the research agenda in human geography
