**Google and the Law** Aurelio Lopez-Tarruella, 2012-02-22 Google s has proved to be one of the most successful business models in today s knowledge economy Its services and applications have become part of our day to day life However Google has repeatedly been accused of acting outside the law in the development of services such as Adwords Googlebooks or YouTube One of the main purposes of this book is to assess whether those accusations are well founded But more important than that this book provides a deeper reflection are current legal systems adapted to business models such as that of Google or are they conceived for an industrial economy Do the various lawsuits involving Google show an evolution of the existing legal framework that might favour the flourishing of other knowledge economy businesses Or do they simply reflect that Google has gone too far What lessons can other knowledge based businesses learn from all the disputes in which Google has been or is involved This book is valuable reading for legal practitioners and academics in the field of information technologies and intellectual property law economists interested in knowledge economy business models and sociologists interested in internet and social networks Dr Aurelio Lopez Tarruella is Senior Lecturer in Private International Law at the University of Alicante Spain

**Wrap Contracts** Nancy S. Kim, 2013-07-27 When you visit a website check your email or download music you enter into a contract that you probably don t know exists Wrap contracts shrinkwrap clickwrap and browsewrap agreements are non traditional contracts that look nothing like legal documents Contrary to what courts have held they are not just like other standard form contracts and consumers do not perceive them the same way Wrap contract terms are more aggressive and permit dubious business practices such as the collection of personal information and the appropriation of user created content In digital form wrap contracts are weightless and cheap to reproduce Given their low cost and flexible form businesses engage in contracting mania where they use wrap contracts excessively and in a wide variety of contexts Courts impose a duty to read upon consumers but don t impose a duty upon businesses to make contracts easy to read The result is that consumers are subjected to onerous legalese for nearly every online interaction In Wrap Contracts Foundations and Ramifications Nancy Kim explains why wrap contracts were created how they have developed and what this means for society She explains how businesses and existing law unfairly burden users and create a coercive contracting environment that forces users to accept in order to participate in modern life Kim s central thesis is that how a contract is presented affects and reveals the intent of the parties She proposes doctrinal solutions such as the duty to draft reasonably specific assent and a reconceptualization of unconscionability which fairly balance the burden of wrap contracts between businesses and consumers
