**International Practices to Promote Budget Literacy** Harika Masud, Helene Pfeil, Sanjay Agarwal, Alfredo Gonzalez Briseno, 2017-08-09 Budget literacy is defined as the ability to read decipher and understand public budgets to enable and enhance meaningful citizen participation in the budget process. It is comprised of two main parts: i) a technical understanding of public budgets including familiarity with government spending, tax rates, and public debt; and ii) the ability to engage in the budget process comprising of practical knowledge on day to day issues as well as an elementary understanding of the economic, social, and political implications of budget policies, the stakeholders involved, and when and how to provide inputs during the annual budget cycle. Given that no international standards or guidelines have been established for budget literacy education to date, this book seeks to address this gap by taking stock of illustrative initiatives promoting budget literacy for youth in selected countries. The underlying presumption is that when supply side actors in the budget process (governments) simplify and disseminate budget information for demand side actors (citizens), this information will then be used by citizens to provide feedback on the budget. However, since citizens are often insufficiently informed about public budgets to constructively participate in budget processes, one way to empower them and to remedy the problem of budget illiteracy is to provide budget literacy education in schools to youth, helping them evolve into civic minded adults with the essential knowledge needed for analyzing their government's fiscal policy objectives and measures, and the confidence and sense of social responsibility to participate in the oversight of public resources. This book elaborates on approaches, learning outcomes, pedagogical strategies, and assessment approaches for budget literacy education and presents lessons that are relevant for the development, improvement, or scaling up of budget literacy initiatives.

**Handbook of Research on Teacher Practices for Diverse Writing Instruction** Hodges, Tracey S., 2022-05-20 The art and practice of writing is complex and multidimensional; students often apply unique writing styles. As such, educators must apply focused teaching methods to nurture these unique forms of writing. Educators must stay up to date with the practices for diverse writing instruction in order to best engage with a diverse classroom. However, resources related to writing typically do not focus on the depth and breadth of writing, and there is a need for a resource that offers a comprehensive look at diverse writing instruction research. The Handbook of Research on Teacher Practices for Diverse Writing Instruction provides a rich discussion of the issues, perspectives, and methods for writing instruction currently in use, with an added lens focusing on diversity and equity. It provides unique coverage on the topic of writing instruction for practical implementation within the classroom setting. Covering topics such as student motivation, curriculum development, and content area instruction, this major reference work is an essential resource for preservice teachers, faculty, and administration of K-12 and higher education academic libraries, government officials, school boards, researchers, and academicians.

**Argumentative Writing in a Second Language** Alan R. Hirvela, Diane Belcher, 2021-12-13

Argumentative Writing in a Second Language is a collection on teaching argumentative writing offering multiple vantage points drawn from the contributors own teaching and research experiences The value of learning how to compose argumentative texts cannot be overstated and yet very little attention has been allocated to the equally important topic of how argumentation is or can be taught in the L2 context Thus this volume shifts attention to teachers and argumentative writing instruction especially within increasingly common multimodal and digital literacy settings While doing so it provides a comprehensive wide ranging view of the L2 argumentative writing landscape within an instructional lens Part I of the volume is topic oriented and focuses on explorations of important issues and perspectives while Part II features several chapters reporting classroom based studies of a variety of instructional approaches that expand our understanding of how argumentative writing can be taught The book will be of value to pre service and in service teachers in varying instructional contexts as well as teacher educators and L2 writing scholars researchers

Teaching the Canon in 21st Century Classrooms Michael Macaluso, Kati Macaluso, 2018-11-01

The canon as much an ideology as it is a body of texts perceived to be intrinsic to the high school English classroom has come under scrutiny for maintaining status quo narratives about whiteness masculinity heterosexuality ability and even those associated with American ideals of self reliance the good life and the self made man Teaching practices around these texts may also reinforce harmful practices and ways of thinking including those connected to notions of culture literary merit and methods of reading teaching and learning Teaching the Canon in 21st Century Classrooms offers innovative critical ways of reading thinking about and teaching canonical texts in 21st century classrooms Responding to the increasingly pluralized digitized global 21st century English classroom chapter authors make explicit the ideologies of a canonical text of focus while also elaborating a pedagogical approach that de centers the canon bridges past and present applies critical theory and celebrates the rich identities of 21st century readers In using this book teachers will be especially poised to take on the canon in their classroom and thus to open up their curricula to ideas values concerns and narratives beyond those embedded in the canonical texts

**Reading, Writing, and Rigor** Nancy Boyles, 2018-04-12

What does rigor a word that frequently pops up in conversations about education really mean More specifically what does it mean for literacy instruction and how does it relate to challenging standards based assessments In this informative and practical guide literacy expert Nancy Boyles uses the framework from Webb s Depth of Knowledge DOK to answer these questions offering experience based advice along with specific examples of K 8 assessment items Boyles defines rigor and shows how it relates to literacy at each DOK level and explains the kind of thinking students will be expected to demonstrate She then tackles the essence of what teachers need to know about how DOK and its associated rigors are measured on standards based assessments Specifically readers learn how each DOK rigor aligns with

standards text complexity close reading student interaction the reading writing connection and formative assessment Teachers coaches and administrators will find clear guidance easy to implement strategies dozens of useful teaching tools and resources and encouragement to help students achieve and demonstrate true rigor in reading and writing

**Transparency in Assessment - Exploring the Influence of Explicit Assessment Criteria** Anders Jönsson, Frans Prins, 2019-04-03 In many schools and higher education institutions it has become common practice to share assessment criteria with students Sometimes it is required for accountability purposes at other times criteria are used as a means to communicate expectations to students However the idea that explicit assessment criteria should be shared with students has been contested On the one hand research has shown that explicit criteria may positively affect student performance reduce their anxiety as well as support students use of self regulated learning strategies On the other hand there are fears that explicit criteria may have a restraining influence on students learning as well as limiting their autonomy and creativity There are also indications of students becoming more performance oriented as opposed to learning oriented when being provided with explicit assessment criteria Taken together it is not fully understood under which circumstances it is productive for student learning to share explicit assessment criteria and under which circumstances it is not In particular empirical research on the proposed negative effects of sharing criteria with learners is limited and most fears voiced in the literature are based on individual experiences and anecdotal evidence In this book we therefore bring different perspectives on transparency in assessment together in order to further our understanding of how students are influenced by the use of explicit assessment criteria A deeper understanding of the influence of explicit assessment criteria on students understanding of criteria motivation and learning is equally imperative for future research and educational practice both of which need to go beyond individual opinions and convictions *The Handbook of Communication Engagement* Kim A.
