Writing Peter Smagorinsky,1994-04-29 This is not a how to do book it is a why to do book What is powerful about these chapters is that they are theory driven and they thus allow us as researchers to understand when and why particular methodologies are appropriate for investigating particular problems in particular situations The book is therefore in an important sense a why you shouldn't book because the authors deliberate on how the motivating theory for research is tied to the theoretical grounds for choosing a methodology The authors grasp and reflect on the need for a researcher to fully understand a methodology's power and its limitations They urge researchers to consistently pose the questions Why should I use this method What does it yield What lens does it provide for the problem I am investigating What must I account for in employing it Speaking About Writing provides not only a range of methodologies to consider for the investigation of writing but situating them in the context of one another enables the reader to consider the relative merits of each Above all the authors stress that research is driven by problems rather than methods and that premise helps researchers consider what is potentially available through the tools provided by different methodologies William Smith University of Pittsburgh Used as a comprehensive text and research tool Speaking About Writing focuses on the issues involved in the collection analysis and interpretation of data The approach goes beyond mere quantitative qualitative differences to examine and critique the very underpinnings and assumptions of the distinct methodologies Distinguished scholars discuss different writing methods stimulated recall think aloud analysis retrospective analysis and intervention analysis Contributors in discourse analysis look at the ways in which individuals interact with other members of the writing community during a more extended writing process problem discussion draft feedback and revision and teacher conferences Finally concluding chapters allow for responses from critics to earlier chapters in order to provide clarification and explanation Speaking About Writing is the perfect text for scholars and students in written communication composition and english communication research methods and psychology cognition **Asian Research in Mathematics Education** Bill Atweh,Lianghuo Fan,Catherine P.

14-19 Education and Skills Ruth Kelly, Great Britain. Department for Education and Skills, 2005. This White Paper details the Government's 10 year reform programme for secondary and post secondary education for 14-19 year olds and sets out its response to the recommendations of the Tomlinson report. Working Group on 14-19 Reform final report available at www.14-19reform.gov.uk published in October 2004. Proposals include:

- i retention of GCSEs and A levels as the cornerstones of the education system rather than adopting a universal baccalaureate style qualification but making improvements such as ensuring it is impossible to get a GCSE grade C or above without functional numeracy and literacy skills promoting science GCSEs allowing the most able A level students to take HE modules in the sixth form and reducing the assessment burden at A level
- ii introducing new specialised Diplomas covering both academic and vocational subjects as well as work experience at three levels equivalent to foundation GCSE and advanced level. The first four Diplomas will be available by 2008 for information and communication technology, ICT, engineering, health and social care, creative and media subjects
- iii developing a pilot programme for 14-16 year olds by 2007-08 based on the post-16 Entry to Employment programme which will give pupils intensive personal guidance and support. Involve significant work based learning lead to a level 1 Diploma with a range of further options including apprenticeships
- iv other proposals including introducing models of moderated teacher assessment in compulsory subjects to help raise standards across the curriculum and introducing a pupil profile for all 14 year olds to record their cross curricula achievements
