Assessment for Experiential Learning Cecilia Ka Yuk Chan,2022-09-29 Chan s book explores the challenges in assessing experiential learning deepens our understanding and inspires readers to think critically about the purpose of assessment in experiential learning Experiential learning has been studied and proven to be effective for student learning particularly for the development of holistic competencies i e 21st century skills soft skills transferable skills considered essential for individuals to succeed in the increasingly global and technology infused 21st century society Universities around the world are now actively organising experiential learning activities or programmes for students to gain enriching and diversified learning experiences however the assessment of these programmes tends to be limited unclear and contested Assessment plays a central role in education policies and students approach to learning But do educators know how to assess less traditional learning such as service learning entrepreneurship cross discipline or cross cultural projects internships and student exchanges While the current assessment landscape is replete with assessments that

measure knowledge of core content areas such as mathematics law languages science and social studies there is a lack of assessments and research that focus on holistic competencies How do we assess students ability to think critically problem solve adapt self manage and collaborate Central to the discussion in this book is the reason students are assessed and how they should be assessed to bring out their best learning outcomes Offering a collection of best assessment practice employed by teachers around the world this volume brings together both theoretical and empirical research that underpins assessment and perceptions of different stakeholders understanding of assessment in experiential learning from students teachers and policymakers The idea of assessment literacy also plays an important role in experiential learning for example reflection is often used in assessing students in experiential learning but how reflection literate are educators are they aware of the ethical dilemmas that arise in assessing students These questions are discussed in detail The volume also introduces a quality assurance programme to recognise student development within experiential learning programmes The book will be particularly informative to academic developers teachers students and community partners who struggle with the development and assessment for experiential learning those who plan to apply for funding in experiential learning and policymakers and senior managements seeking evidence and advice on fine tuning curricular assessment designs and quality assurance The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Understanding Development and Proficiency in Writing

Philip Durrant, Mark Brenchley, Lee McCallum, 2021-03-18 Quantitative corpus research on written language development has expanded rapidly in recent years assisted by the ever increasing power and accessibility of

software capable of reliably analysing huge collections of learner writing For this work to reach its full potential it is important that researchers have a strong understanding of its methodological foundations and of the existing empirical evidence base on which it can build This book provides the most comprehensive discussion to date of research in this area Covering both first and second language learning contexts it sets out a coherent theoretical framework and systematically reviews studies published over the last seventy years in order to establish what such research has taught us about written language development what it hasn't taught us and what we should do next Timely and original this is an essential reference work for academic researchers and students of first and second language writing

Nurturing Your Child's Math and Literacy in Pre-K-Fifth Grade Mary Mueller, Alisa Hindin, 2016-11-23 With recent changes in the curriculum and standards in language arts and mathematics parents often are challenged to find ways to help their children be successful in their learning endeavors While parents want to be involved in their children's education they are often unsure of their role in their children's learning and the best ways to help their children to succeed academically Moreover with the changes in how math and literacy are being taught parents often struggle with helping even first grade children with their homework In this book we set out to alleviate this struggle by offering parents a resource they can use to navigate their child's education communicate with teachers and support their children in learning mathematics and literacy After providing an overview of the current educational climate and tips for communication with teachers we share strategies and suggestions parents can use to assist their children in language arts and mathematics We provide detailed descriptions of activities games books and conversations that connect with what children will be learning at each grade level
