Education Management and Management Science Dawei Zheng, 2015-07-28 This proceedings volume contains selected papers presented at the 2014 International Conference on Education Management and Management Science ICEMMS 2014 held August 7-8 2014 in Tianjin China. The objective of ICEMMS2014 is to provide a platform for researchers, engineers, academicians, as well as industrial professionals from all over the world. *Comparing High-Performing Education Systems* Charlene Tan, 2018-09-03 *Comparing High-Performing Education Systems* provides original insights into the educational structures, ideologies, policies, and practices in Singapore, Shanghai, and Hong Kong. Taking as its basis their global reputation and consistently strong performance in formal assessments, the author provides an in-depth analysis and comparison of these three education systems that draws on cutting-edge research. Chapters explore the dominant cultural and educational norms in Singapore, Shanghai, and Hong Kong to give a wider picture of these high-performing education systems. The performance of students in international large-scale assessments such as Programme for International Student Assessment (PISA), Trends in International Mathematics and Science Study (TIMSS), and Progress in International Reading Literacy Study (PIRLS) is considered alongside an exploration of attitudes to schooling, tutoring, and assessment. The book shows how Singapore, Shanghai, and Hong Kong exemplify an East Asian Educational Model (EAEM). Such a model is rooted in and shaped by Confucian habitus, unconscious and ingrained worldviews, dispositions, and habits that reflect the standards of appropriateness in a Confucian Heritage Culture, aspires high performance, a balance between academic excellence and holistic development, and utilises educational harmonisation, the art of bringing together different and contradictory means and ends to achieve desired educational outcomes. Informative and thought-provoking, this book is a useful reference for policymakers, researchers, educators, and general readers on high-performing education systems, school reforms in East Asia, Confucian influences on education, and cross-cultural policy learning and transfer. *Resources in Education*, 1998
