The Vision Keepers Doug Alderson,2007-01-01 We are all seekers Some find their path on pilgrimage to the Mahabodhi Temple in India or the Haji Ali mausoleum as they embark on a journey to Mecca others find God at the burial site of St James in the Cathedral de Santiago de Compostela in northwestern Spain Author and environmentalist Doug Alderson meets the Great Spirit through the ancient spiritual practice of walking *The Vision Keepers* is the compelling true story of a seeker who under the guidance of Bear Heart a Muskogee Creek Indian and Medicine Man finds unity with our nation s native people and reconnects with the earth through profound and mysterious means At a time when our global community is in great conflict we can learn much from Native Americans *The Vision Keepers* not only recounts the story of one man s experience with native people and their spirituality but it offers unique insight into the struggles of an entire culture personal reconciliation world peace and preservation of the Earth and its ancient wisdom *Forming the Future Is a Journey* Frances Lorenz,2019-12-12 My thesis is that there is a direct relationship between our life journeys and Spirit In the process of living our lives and evolving spiritually we move through many dimensions of being This inner journeying reflects in the world *Forming the Future* implies an individual action that shapes the future It contains the idea that an individual is not powerless to shape his or her own destiny When I think of *Forming the Future* I feel happy and in saying those words the mark is raised of all that is possible to achieve As a mantra it is a postulate in my consciousness for the magic that happens when spirit soul and body are in complete alignment It is a remembrance of an experience of total surrender to something greater than myself *Hidden Enemies of Democracy* George E. Monroe,2019-08-27 After a startling discovery during a visit to the site of the Nazi Trials in Nuremberg Germany George Monroe spent six years researching and writing about his emerging discoveries revealing that hidden enemies are hard at work on a stealthy plan to kill democracy and replace it with a free

market scheme under the exclusive control of a few power hungry monopolists Mitchell's Point George E. Monroe, Ph.D.,2002-02-01 The purpose of this book is to share a revelation The information on which this revelation is based came from the Universal Mind God It came in whispers It came through dreams It came when experiencing the heightened awareness of meditation or hypnotic trance or mental imagery It was often received in the form of startling intuition The vehicle for presenting this revelation is the story of one person s developmental journey from simple consciousness to cosmic awareness The main character Gregg arrives at a potent juncture in his life where all the negatives and positives seem to feed into a central purpose The more he learns the more he is able to see Events in his life that are no coincidence become ever more frequent and lead him to significant discoveries These discoveries accumulate and one day they result in a powerful flash of insight that he instantly knows is something vitally important for peace in the world and the ultimate survival of human life Mystical Dogs Jean Houston,2011-02-16 For many years I have been a student of spirituality and states of consciousness For many more years than that I ve been a student of dogs says bestselling author Jean Houston whose study of this subject is the basis of Mystical Dogs Houston has spent a lifetime bridging the worlds of animals and humans exploring a realm that pet owners have glimpsed and indigenous peoples have known for millennia The author identifies dogs with their deceptively uncomplicated joyous loving nature as custodes animi guardians of our souls She shows how animals particularly dogs are often the best spiritual teachers For example in Houston s hands a seemingly simple story such as a man saying goodbye to his beloved dog becomes a striking metaphor about personal and planetary transformation

Riding with the Phoenix George E. Monroe, Ph.D.,2014-08-22 This book contains several different levels of meaning each with its own episodes of adventure intrigue and message The levels of discourse also can be seen as various stages in the sojourn of the main character Gregg from simple consciousness to cosmic awareness Several vehicles help Gregg reach his epiphanies including dreams meditation coincidences and two near death experiences A visit to Greece that included stops at the Delphic Oracles historic site and Agamemnon s tomb greatly expanded his perceptive abilities While standing inside the beehive shaped tomb he felt he had been slammed through a time warp to a new level of awareness which he would later describe as holographic awareness The group dynamics revelation that he divined or rediscovered through intuition dreams and meditation is certainly important enough in itself as it sheds light on many of the social ills of our day But the real power and value of this book is that it demonstrates how one person can and does reach higher levels of awareness and being **Riding with the Phoenix** provides fresh insights on and linkages to new research and understanding about human awareness It serves as a metaphor for the increasing consciousness of the entire human species so necessary in these times of the augmenting and unresolved transboundary and transcultural dilemmas that we face **How Corporations Hurt Us All** Dan Butts,2003 The recent accounting and corporate scandals of Enron WorldCom Tyco K Mart and McWane producer of cast iron water and sewer pipes which has killed 9 workers and injured 4600 more with impunity

since 1995 and other greedy and lawless billion dollar behemoths are just the tip of the iceberg relative to the serious and pervasive harm that corporations and greed are doing to people communities the earth and to our children s and grandchildren s future How Corporations Hurt Us All examines many crises including how Big Oil billion dollar weapons contractors and unaccountable private firms like DynCorps are continuing dangerous and immoral Cold War policies by driving multiple wars and military operations our collapsing corporate health care system that restricts free speech stifles public debate and manipulates public opinion to serve narrow corporate and political goals Some of the world s largest multinational corporations ExxonMobil 1 oil company Wal Mart 1 retailer HCA 1 hospital conglomerate Citigroup the world s 1 financial institution and other rogue operations are profiled in the book The good news is that there are effective approaches to all of these interrelated greed driven crises Even more hopeful are the corporate reform and global economic democracy movements representing thousands of dedicated citizens groups and millions of individuals throughout the world Yet what is ultimately necessary to reverse global economic social and environmental deterioration and eventual collapse insure world peace and security strength our weakened civil liberties and fulfill our human potential as the book explains is forging a broad consensus on a new bottom line or organizing principle for business and society
