[Recollections from My Journey Through Life](#) Shaukat Hassan, 2020-11-23 Every person has a story to tell This is the story of a Bangladeshi who was born one cold December morning in the village of Lostimanika in East Pakistan and went on to traverse the world during the next sixty plus years It is a story of growing up in the peaceful Hindu Muslim community of Narayanganj of a Muslim boy being educated in Catholic schools and of leaving home to study in the West when he was merely seventeen That started a fifty year journey from his homeland to his present home in Canada Through it all he lived and worked in six continents and experienced the beauty and diversity as well as the complexities and hardships faced by peoples worldwide This book is a personal story a collection of snippets from his eventful journey through life The author shares many delightful anecdotes the scary moments that spelt danger and his occasional brush with death It is also a story of visits to many historical cultural and religious sites and of learning about man's contribution to humanity The author has worked with many governments civil society organizations academics the military and the media under challenging circumstances and often in hazardous environments It is in the end a story of surmounting all obstacles and of having lived a full and happy life *High-Stakes Testing in Education* Theo J.H.M Eggen, Gordon Stobart, 2015-10-14 High stakes educational testing is a global phenomenon which is increasing in both scale and importance Assessments are high stakes when there are serious consequences for one or more stakeholders Historically tests have largely been used for selection or for providing a licence to practise making them high stakes for the test takers Testing is now also used for the purposes of improving standards of teaching and learning and of holding schools accountable for their students results These tests then

become high stakes for teachers and schools especially when they have to meet externally imposed targets More recent has been the emergence of international comparative testing which has become high stakes for governments and policy makers as their education systems are judged in relation to the performances of other countries In this book we draw on research which examines each of these uses of high stakes testing The articles evaluate the impact of such assessments and explore the issues of value and fairness which they raise To underline the international appeal of high stakes testing the studies are drawn from Australia Africa the Caribbean Europe former Soviet republics and North America Collectively they illustrate the power of high stakes assessment in shaping for better or for worse policy making and schooling This book was originally published as a special issue of *Assessment in Education Principles Policy Practice*
