Connect the black connector to one of the two black 12 volt USB connectors on the system board.

NOTE: The system board connector allows you to install two 12 volt Powered USB expansion cards. The green connectors on the system board are coupled together as one connector. The black connectors on the system board are separate connectors.

7. If you are installing two cards, connect the single end of each cable to the rear of the cards. Connect the green connectors on the other end of the cables to the power 12 volt USB connectors on the system board that you coupled together. Connect the black connectors to the two black 12 volt USB connectors on the system board.

8. Rotate the slot cover retention latch back to place to secure the expansion card.

9. Slide the lip on the front end of the screen panel under the lip on the front of the chassis. Then press the back end of the screen panel into the unit so that it locks into place.

10. Reconnect the power cord and any external devices, then turn on the computer.
