*True to the Land* Paul van Reyk, 2021-10-11

Spanning 65 000 years this book provides a history of food in Australia from its beginnings with the arrival of the first peoples and their stewardship of the land to a present where the production and consumption of food is fraught with anxieties and competing priorities It describes how food production in Australia is subject to the constraints of climate water and soil leading to centuries of unsustainable agricultural practices

post colonization

Australian food history is also the story of its xenophobia and the immigration policies pursued which continue to undermine the image of Australia as a model multicultural society

This history of Australian food ends on a positive note however as Indigenous peoples take increasing control of how their food is interpreted and marketed

*The Getting of Garlic* John Newton, 2018-10-01

The white colonisers of Australia suffered from Alliumphobia a fear of garlic

Local cooks didn't touch the stuff and it took centuries for that fear to

lift This food history of Australia shows we held onto British assumptions about produce and cooking for a long time and these fed our views on racial hierarchies and our place in the world Before Garlic we had meat and potatoes After Garlic what we ate got much more interesting But has a national cuisine emerged What is Australian food culture Renowned food writer John Newton visits haute cuisine or fine dining restaurants the cafes and mid range restaurants and heads home to the dinner tables as he samples what everyday people have cooked and eaten over centuries His observations and recipes old and new show what has changed and what hasn't changed as much as we might think even though our chefs are hailed as some of the best in the world      **Great Performances in the Kitchen** ,1988      **The Good New Stuff** Gardner
