The Labdhisāra of Nemicandra Siddhānta Cakravartī Laxmi Chandra Jain, 1994 Study of Labdhisāra of Nemicandra Siddhāntacakravartin work on Jaina doctrines of karma and ancient mathematics and science **Reality, Truth and Evil** Thomas Meyer, 2005 Using the events of 9/11 and Pearl Harbor as his backdrop Meyer studies the issues of reality truth and evil Offering important new perspectives he shows that U.S. political practice under the influence of secret societies such as Skull and Bones is based on an ideology of polarity and conflict Meyer offers instances of this tendency encouraging what Huntington famously referred to as a clash of civilizations For example a week before George Bush Sr spoke in Congress about the need for a new world order a humorous cartoon map in the Economist divided the world's continents into religious and philosophical blocks creating a new region called Islamistan In 1997 National Security Advisor Zbigniew Brzezinski wrote openly of U.S. geo strategic plans stating that it would be hard to achieve such goals except in the circumstances of a truly massive and widely perceived direct external threat It seems that this was granted with the events of September 11 2001 and the consequent launch of the war on terror The immediate comparisons led by George W. Bush with Pearl Harbor demand a reassessment of the events of 1941 Meyer points to conclusive evidence suggesting that Roosevelt deliberately provoked the attacks and failed to pass on intelligence to US Navy chiefs Could it be possible that certain members of the U.S. elite likewise deliberately remained passive before 9/11 Why only two weeks after the attacks were celebrations held at CIA headquarters in which Bush profusely thanked the secret services on behalf of the American people In contrast to the divisive

thinking and conflict management of leading representatives of the Anglo American elite inspired by a contorted reading of some basic insights of the philosopher Hegel the author shows how the holistic approach of Rudolf Steiner and Mabel Collins offers a radical alternative for dealing with polarities and overcoming conflict

current teachings and practices and looks at what S khyayogins do and what S khyayoga is as a yoga practice A valuable contribution to recent and ongoing debates this book will be of interest to academics in the fields of Religious Studies Anthropology Asian Studies Indology Indian philosophy Hindu Studies and Yoga Studies *Academy, with which are Incorporated Literature and the English Review* ,1891 **Hindu Mahasabha in Colonial North India, 1915-1930**

Prabhu Bapu,2013 Hindu nationalism has emerged as a political ideology represented by the Hindu Mahasabha This book explores the campaign for Hindu unity and organisation in the context of the Hindu Muslim conflict in colonial north India in the early twentieth century It argues that India s partition in 1947 was a result of the campaign and politics of the Hindu rightwing rather than the Islamist politics of the Muslim League alone The book explains that the Mahasabha articulated Hindu nationalist ideology as a means of constructing a distinct Hindu political identity and unity among the Hindus in conflict with the Muslims in the country It looks at the Mahasabha s ambivalence with the Indian National Congress due to an extreme ideological opposition and goes on to argue that the Mahasabha had its ideological focus on an anti Muslim antagonism rather than the anti British struggle for India s independence adding to the difficulties in the negotiations on Hindu Muslim representation in the country The book suggests that the Mahasabha had a limited class and regional base and was unable to generate much in the way of a mass movement of its own but developed a quasi military wing besides its involvement in a number of popular campaigns Bridging the gap in Indian historiography by focusing on the development and evolution of Hindu nationalism in its formative period this book is a useful study for students and scholars of Asian Studies and Political History *The Bihar & Orissa Gazette* ,1922 *A Commerce of Knowledge* Simon Mills,2020-01-07 A Commerce of Knowledge tells the story of three generations of Church of England chaplains who served the English Levant Company in Syria during the seventeenth and eighteenth centuries Reconstructing the careers of its protagonists in the cosmopolitan city of Ottoman Aleppo Simon Mills investigates the links between English commercial and diplomatic expansion and English scholarly and missionary interests the study of Middle Eastern languages the exploration of biblical and Greco Roman antiquities and the early dissemination of Protestant literature in Arabic Early modern Orientalism is usually conceived as an episode in the history of scholarship By shifting the focus to Aleppo A Commerce of Knowledge brings to light the connections between the seemingly separate worlds tracing the emergence of new kinds of philological and archaeological enquiry in England back to a series of real world encounters between the chaplains and the scribes booksellers priests rabbis and sheikhs they encountered in the Ottoman Empire Setting the careers of its protagonists against a background of broader developments across Protestant and Catholic Europe Mills shows how the institutionalization of English scholarship and the later English attempt to influence the Eastern Christian churches were bound up with the international struggle to establish a commercial foothold in the Levant He argues that these connections would endure until the shift of British commercial and imperial interests to the Indian subcontinent in the second half of the

eighteenth century fostered new currents of intellectual life at home Psychology in the Indian Tradition Ramakrishna K. Rao, Anand C Paranjpe, 2023-03-06 Professors Ramakrishna Rao and Anand Paranjpe are two distinguished psychologist philosophers who pioneered what has come to be known as Indian psychology In this authoritative volume they draw the contours of Indian psychology describe the methods of study define the critical concepts explain the central ideas and discuss their implications to psychological study and application to life The main theme is organized around the theme that psychology is the study of the person They go on to present a model of the person as a unique composite of body mind and consciousness Consciousness is conceived to be qualitatively and ontologically different from all material forms The goal of the person is self realization which consists in the realization of the true self as distinct and separate from the manifest ego It is facilitated by cultivating consciousness which leads to some kind of psycho spiritual symbiosis personal transformation and flowering of one's hidden human potentials
