Hurst,2010-05-11 For the first time a seasoned business executive and avid golfer combines these two passions to explore what makes for top performance in each field Management consultant David K Hurst explores compelling links relating the two activities to explain clearly what every manager who plays golf may feel only intuitively that there is a deep systemic connection between them For on the tee as in the boardroom a player can t just hit and hope he or she must continually think ahead contemplate multiple scenarios and consider the downside of every decision And then everything depends on execution In Learning from the Links Hurst clarifies muddled thinking in both management and golf he deals squarely with the challenge of implementing a game plan and seeing it through Hurst takes to task the current head down instructional model used to teach golf and management He addresses the huge gulf between knowing what to do in a given situation and knowing how to do it This chasm is an ever present hazard both on the course and in an organization it keeps people from solving their problems and achieving their goals By examining golfers and managers struggles for improvement Hurst shows us why complex systems are so hard to change and how to set about changing them systematically Using the latest thinking from fields as diverse as neuroscience artificial intelligence art and anthropology Hurst s primary purpose is to help his readers make sense of their own experience to help them learn more effectively His practical advice is profusely illustrated with examples from both golf and management allowing the reader to move back and forth between his or her experiences in both activities Part business management book part strategy guide these are more than just lessons for one s game or one s office these are lessons for life **Golf Ball** Harry Brown,2015-01-29 Object Lessons is a series of short beautifully designed books about the hidden lives of ordinary things Harry Brown explores the composition history kinetic life and the long deterioration of golf balls which as it turns out may outlive their hitters by a thousand years in places far beyond our reach Golf balls embody our efforts to impose our will on

the land whether the local golf course or the Moon but their unpredictable spin bounce and roll often defy our control Despite their considerable technical refinements golf balls reveal the futility of control They inevitably disappear in plain sight and find their way into hazards Golf balls play with people Harry Brown s short treatise on the golf ball serves up surprising lessons about the human desire to tame and control the landscape through technology Object Lessons is published in partnership with an essay series in The Atlantic
