Occupational Therapy for People Experiencing Illness, Injury or Impairment - E-Book Michael Curtin, Mary Egan, Yeliz Prior, Tracey Parnell, Roshan Galvaan, Katrine Sauv -Schenk, Daniel Cezar Da Cruz, 2024-09-17 Occupational Therapy for People Experiencing Illness Injury

or Impairment is a seminal textbook that has been used in preregistration occupational therapy education for more than 40 years. Now in its eighth edition, it reflects significant developments within the occupational profession and the contexts of the delivery of health and social care when working with people who experience illness, injury, or impairment to promote occupational participation. It is highly regarded for its level of detail, its practical approach, and the breadth of its content, with input from multiple authors from around the world. Fully updated and built around the professional concepts and processes to promote occupational participation, this invaluable resource will enable occupational therapists to link theory with day-to-day practice, reflect on the knowledge, expertise, and attitudes that inform their work and practice in a critically reflexive way. Practical text and online assets link theory with day-to-day practice. Collaborative relationship-focused, inclusive, and strengths-based language. Summaries and key points for each chapter make navigation easy. Focus on working with groups, communities, and populations, in addition to working with individuals, reflecting the evolving and expanding scope of practice. Practice stories throughout the text and detailed practice stories in Section 5 invite the reader to reflect on the information, skills, and attitudes that inform practice. Online multiple-choice questions and questions for reflection at the end of each chapter enable readers to assess and apply their knowledge.

Core Topics in Operating Department Practice Brian Smith, Paul Rawling, Paul Wicker, Chris Jones, 2007-03-15. Recent changes in medical roles and responsibilities have raised the profile of Operating Department Practitioners (ODPs). The level of knowledge is vast, and exams must be taken working towards statutory registration. This is the first in a series of three books providing comprehensive information for healthcare staff working in the operating department. Topics covered include anaesthesia, critical care, post-interventional care, enhancing care delivery, professional practice, leadership, and resource management. The clear and concise format is ideally suited to study, qualification, and for continued reference during practice. Written by specialists with a wealth of knowledge and experience, and incorporating problem-based learning using case studies, this book will be essential reading for ODPs and theatre nurses throughout the UK, in Australia, where the same structures have been adopted, and worldwide for all professionals working in operating departments.

Tolley's Practical Risk Assessment Handbook Mike Bateman, 2006. Risk assessment has become the backbone of Health and Safety management in the UK and elsewhere. Employers have a legal duty to prove that risk assessments have been carried out and precautions have been implemented. Mike Bateman demystifies the risk assessment process and how it relates to UK legislation. Previous ed. Croydon: LexisNexis, 2003.
