Handbooks and Tables in Science and Technology Russell H. Powell, 1983 The eagerly awaited third edition of this important resource provides a listing of over 3 600 scientific and technical handbooks in the hard sciences with over 650 new to this edition All entries have complete bibliographic citations and most offer brief annotations that describe the content Serving as both a research and collection development tool Handbooks and Tables in Science and Technology was created for users in science and engineering libraries special and academic libraries and public libraries with large sci tech collections Copyright Libri GmbH All rights reserved

A Grammar of Ngardi Thomas Ennever, 2021-11-08 Ngardi is a highly endangered language with fewer than 10 remaining speakers and is no longer being acquired by children Despite the limited circulation of a draft dictionary Cataldi 2011 there has been no published reference grammar of this language Upon publication this work will constitute the most comprehensive grammar of any Ngumpin Yapa language The Ngardi language exhibits many of the same typologically interesting features first identified in the related language Warlpiri namely phenomena of non configurational syntax and null anaphora This grammar also brings to light a number of unique properties which will be of interest to linguistic typologists and formal theorists The registration of arguments both through case marking on free NPs as well as in pronominal enclitics is similar to Warlpiri but differs in its detail particularly in the ability to register various non core cases e g locative and allative as arguments in the pronominal complex Within the verbal system Ngardi is notably for a large number of verbal inflections 20 which mark various distinctions in tense aspect and mood as well as associated motion and speaker centric directionality Ngardi exhibits a highly articulated system of complex predication covering both complex verb and serial verb constructions Other typologically interesting aspects of the language include the presence of dedicated apprehensional constructions and interesting interactions between negation and clausal modality The descriptive value of this grammar is enhanced by its sustained regional comparison of the linguistic features of Ngardi with those of neighbouring Ngumpin Yapa and Western Desert languages This grammar and a forthcoming dictionary of Ngardi will be of great significance to both those few remaining Ngardi speakers as well as the next generation of Ngardi people for whom accessible published materials will be an invaluable resource *Journal of the Indian Chemical Society* Indian Chemical Society, 1984 *Journal of the Indian Chemical Society* Indian Chemical Society, Calcutta, 1984

The Report: Indonesia 2014 Oxford Business Group, 2014-05-21 On the cusp of 2014 national elections and the 2015 integration of the ASEAN Economic Community Indonesia is poised to continue its rapid economic expansion While the country's natural resources are still plentiful by channelling foreign direct investment into the right areas the government is ensuring that true potential in terms of value and manufacturing is achieved By inviting targeted investment and adapting existing regulatory frameworks the government has taken significant steps to facilitate foreign investment and the development of value added industries Indonesia is a country renowned for its abundance of natural resources which include oil gas coal nickel tin copper

gold and silver While slightly down on the previous year the country s total oil production for 2012 stood at 861 000 barrels per day accounting for approximately 1 2% of the world s oil production Indonesia remains the world s largest exporter of thermal coal exporting a total of 304m tonnes in 2012 to countries such as Japan South Korea China and India The country continues to be the dominant nation in South east Asia politically and economically and its participation within ASEAN in particular will likely determine the shape of regional integration with the introduction of the ASEAN Economic Community AEC in 2015 looming as the bloc s next major milestone

Classical Eight- and Lower-order Runge-Kutta-Nyström Formulas with Stepsize Control for Special Second-order Differential Equations Erwin Fehlberg,1972 The formulas include a stepsize control procedure based on a complete coverage of the leading term of the truncation error in x The formulas require fewer evaluations per stop than other Runge Kutta Nystrom formulas if the latter are operated by using the standard procedure for stepsize control An example is presented With results being of the same accuracy Runge Kutta Nystrom formulas discussed save 50 percent or more computer time compared with other Runge Kutta Nystrom formulas
