Encyclopedia of Transportation Mark Garrett,2014-08-13 Viewing transportation through the lens of current social
economic and policy aspects this four volume reference work explores the topic of transportation across multiple disciplines
within the social sciences and related areas including geography public policy business and economics The book s articles all
written by experts in the field seek to answer such questions as What has been the legacy not just economically but politically
and socially as well of President Eisenhower s modern interstate highway system in America With that system and the
infrastructure that supports it now in a state of decline and decay what s the best path for the future at a time of enormous
fiscal constraints Should California politicians plunge ahead with plans for a high speed rail that every expert says despite
the allure will go largely unused and will never pay back the massive investment while at this very moment potholes go
unfilled all across the state What path is best for emerging countries to keep pace with dramatic economic growth for their

part What are the social and financial costs of gridlock in our cities Features Approximately 675 signed articles authored by prominent scholars are arranged in A to Z fashion and conclude with Further Readings and cross references A Chronology helps readers put individual events into historical context a Reader s Guide organizes entries by broad topical or thematic areas a detailed index helps users quickly locate entries of most immediate interest and a Resource Guide provides a list of journals books and associations and their websites While articles were written to avoid jargon as much as possible a Glossary provides quick definitions of technical terms To ensure full well rounded coverage of the field the General Editor with expertise in urban planning public policy and the environment worked alongside a Consulting Editor with a background in Civil Engineering The index Reader s Guide and cross references combine for thorough search and browse capabilities in the electronic edition Available in both print and electronic formats Encyclopedia of Transportation is an ideal reference for libraries and those who want to explore the issues that surround transportation in the United States and around the world

Flight Instructor Rotorcraft-helicopter Written Test Guide United States. Flight Standards Service,1977
