The Medical Library Association Guide to Providing Consumer and Patient Health Information Michele Spatz,2014-05-01 Comprised of fifteen chapters written by experienced consumer health librarians The Medical Library Association Guide to Providing Consumer and Patient Health Information is designed for library and information science graduate students as well as librarians new to health and medical librarianship regardless of library setting It is comprehensive in scope covering all aspects of consumer and patient health and medical information from their humble grassroots beginnings to the ever evolving applications of new technology and social media In between the mundane aspects of health and medical librarianship such as needs assessment costs budgeting and funding and staffing are discussed Adding richness to this discussion are the coverage of more sensitive topics such as patient friendly technology ethical issues in providing consumer and patient health information meeting the needs of diverse populations and responding

to individuals from various cultural backgrounds No comprehensive picture of consumer and patient health librarianship would be complete without addressing the critical importance of marketing and strategic partnerships such discussions round out this invaluable guide Patients today must be knowledgeable enough to participate in their health and well being Shorter hospital stays changing reimbursement patterns and the gradual shift towards focusing on proactively maintaining health and managing disease require patients to be informed and actively engaged Education information and understanding are important components of actively engaged patients Correspondingly in today s e world there is a glut of information resources available through the Internet from YouTube videos to Googling to blogs and Twitter feeds What is lacking in these information rich times is the relevance of meaning and context for those who ask Does this health and medical information apply to me and my unique clinical picture or How do I use this information As knowledge navigators information technology wizards and content experts librarians offer focused responses to individuals specific and highly personal health and medical information queries In a new healthcare world order of optimizing health and minimizing hospitalizations such a service is invaluable Sadly there still exists in our highly networked and technological age an information gap for those who struggle in obtaining meaningful health or medical information These individuals may be foreign born non English speaking poor rural aged or semi literate Whatever their status librarians must have the wherewith all to find germane resources and also help create responsive mechanisms to bridge that health information gap for vulnerable citizens The Medical Library Association Guide to Providing Consumer and Patient Health Information will guide you on the road to providing that response

Electronic Commerce Efraim Turban,David King,Jae Kyu Lee,Ting-Peng Liang,Deborrah C. Turban,2015-01-29

Throughout the book theoretical foundations necessary for understanding Electronic Commerce EC are presented ranging from consumer behavior to the economic theory of competition Furthermore this book presents the most current topics relating to EC as described by a diversified team of experts in a variety of fields including a senior vice president of an e commerce related company The authors provide website resources numerous exercises and extensive references to supplement the theoretical presentations At the end of each chapter a list of online resources with links to the websites is also provided Additionally extensive vivid examples from large corporations small businesses from different industries and services governments and nonprofit agencies from all over the world make concepts come alive in Electronic Commerce These examples which were collected by both academicians and practitioners show the reader the capabilities of EC its cost and justification and the innovative ways corporations are using EC in their operations In this edition previous editions published by Pearson Prentice Hall the authors bring forth the latest trends in e commerce including social businesses social networking social collaboration innovations and mobility Gay Men, Identity and Social Media Elija Cassidy,2018-04-09

This book explores how the social and technical integration of mainstream social media into gay men s digital cultures since the mid 2000s has played out in the lives of young gay men looking at how these convergences have influenced more recent

iterations of gay men's digital culture Focusing on platforms such as Gaydar Facebook Grindr and Instagram Cassidy highlights the ways that identity and privacy management issues experienced in this context have helped to generate a culture of participatory reluctance within gay men's digital environments *E-Government Success around the World: Cases, Empirical Studies, and Practical Recommendations* Gil-Garcia, J. Ramon, 2013-06-30 While some e government projects fail to deliver the expected benefits due to numerous technical organizational institutional and contextual factors information technology continues to be utilized by international governments to achieve countless benefits E Government Success around the World Cases Empirical Studies and Practical Recommendations presents the latest findings in the area of e government success Written for academics and professionals this book aims to improve the understanding of e government success factors and cultural contexts in the field of governmental information technologies in various disciplines such as political science public administration information and communication sciences and sociology **Good Data** Angela Daly, Monique Mann, S. Kate Devitt, 2019-01-23 Moving away from the strong body of critique of pervasive bad data practices by both governments and private actors in the globalized digital economy this book aims to paint an alternative more optimistic but still pragmatic picture of the datafied future The authors examine and propose good data practices values and principles from an interdisciplinary international perspective From ideas of data sovereignty and justice to manifestos for change and calls for activism this collection opens a multifaceted conversation on the kinds of futures we want to see and presents concrete steps on how we can start realizing good data in practice *This Is Why We Can't Have Nice Things* Whitney Phillips, 2015-03-20 Why the internet troll problem is actually a culture problem how online trolling fits comfortably within today's media landscape Internet trolls live to upset as many people as possible using all the technical and psychological tools at their disposal They gleefully whip the media into a frenzy over a fake teen drug crisis they post offensive messages on Facebook memorial pages traumatizing grief stricken friends and family they use unabashedly racist language and images They take pleasure in ruining a complete stranger's day and find amusement in their victim's anguish In short trolling is the obstacle to a kinder gentler Internet To quote a famous Internet meme trolling is why we can't have nice things online Or at least that's what we have been led to believe In this provocative book Whitney Phillips argues that trolling widely condemned as obscene and deviant actually fits comfortably within the contemporary media landscape Trolling may be obscene but Phillips argues it isn't all that deviant Trolls' actions are born of and fueled by culturally sanctioned impulses which are just as damaging as the trolls' most disruptive behaviors Phillips describes the relationship between trolling and sensationalist corporate media pointing out that for trolls exploitation is a leisure activity for media it's a business strategy She shows how trolls the grimacing poster children for a socially networked world align with social media And she documents how trolls in addition to parroting media tropes also offer a grotesque pantomime of dominant cultural tropes including gendered notions of dominance and success and an ideology of entitlement We don't just have a trolling

problem Phillips argues we have a culture problem This Is Why We Can t Have Nice Things isn t only about trolls it s about a culture in which trolls thrive
