## THE EXPEDITION 1,000 PROJECT

Dave Cornthwaite has big plans: to complete 25 separate journeys, each over 1000 km long, as part of his Expedition 1,000 project. But he isn't using cars, buses or planes: all of the 25 forms of transport he uses aren't motorised. He also hopes to raise £1,000,000 for charity.

His journey began in 2004 when he completed 11 journeys and another nine were planned. His first trip was in 2004, when he cycled over 5823 km across Australia on a dismount. It was the longest, slowest journey ever made. In 2007, he made a tandem bike with a friend from Newcastle, Canada, on a voyage in the US and then travelled for three months down the Atlantic by Runby pack and board, spending much of the time engaged in his journey to over 100 ports in 100 days.

His eight journeys over about Europe on an elliptical bike, which looks like an exercise bike and running machine, where the rider stands and pedals. On his last trip, Cornthwaite travelled Europe from Germany to the UK. But before he left, he let the public vote on a special mode for the kind of transport he used and chose the one which took.

One of Cornthwaite's most recent trips involved riding through China in the downy on a White Swan. He was the first to ride across the world from Norway to Finland. It's a long and hard journey, travelling over 1000 km at about 15 km an hour.

His journeys have not been without problems. Once he was caught up by 'lockdown' in America in the US, when a spreading virus kept him in his house. In his vehicle, which is the only one he has, he had to go to the hospital with a broken leg, as well as his car.

He promised to change his life from that point on. And he did.
