

JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

Trouble at the Bar Clifford Winston,David Burk,Jia Yan,2021-03-02 Deregulating the legal profession will benefit society by improving access to legal services and the efficacy of public policies Lawyers dominate a judicial system that has come under fire for limiting access to its services to primarily the most affluent members of society Lawyers also have a pervasive influence throughout other parts of government This is the first book offering a critical comprehensive overview of

the legal profession's role in failing to serve the majority of the public and in contributing to the formation of inefficient public policies that reduce public welfare. In *Trouble at the Bar* the authors use an economic approach to provide empirical support for legal reformers who are concerned about their own profession. The authors highlight the adverse effects of the legal profession's self-regulation which raises the cost of legal education, decreases the supply of lawyers and limits the public's access to justice to the point where in general only certified lawyers can execute even simple contracts. At the same time barriers to entry that limit competition create a closed environment that inhibits valid approaches to analyzing and solving legal problems that are at the heart of effective public policy. Deregulating the legal profession, the authors argue, would allow more people to provide a variety of legal services without jeopardizing their quality, reduce the cost of those services, spur competition and innovation in the private sector and increase the quality of lawyers who pursue careers in the public sector. Legal practitioners would enjoy more fulfilling careers and society in general and its most vulnerable members in particular would benefit greatly.
