*Headscarf* Richard Peres, 2012      **The Day Turkey Stood Still** Richard Peres, 2022-07-01 On May 2 1999 Merve Kavakci walked into the Turkish Grand National Assembly to take her oath of office as a member of Turkish Parliament while wearing her Islamic headscarf hijab which is banned for civil servants in secular Turkey A near riot ensued and the Prime Minister told the crowd to put this woman in her place Since then Kavakci has become an outspoken critic of Turkey's secularization policy travelling the globe in support of Muslim women's rights especially regarding the hijab which she promotes as a symbol of female empowerment The Day Turkey Stood Still is a unique behind the scenes story of the first headscarved woman to be elected into the Turkish Parliament and the harsh reaction against her election The book reveals for the first time what happened behind closed doors to prevent Merve Kavakci from taking her oath of office and it deconstructs her vilification by the government the military the media and the political parties The book also uses this fascinating true story to promote a greater understanding of contemporary Turkish politics and to illustrate the ongoing tension between Turkey's military secular bloc and its predominantly Islamic population This highly accessible book will resonate with Western readers who want to know more about this fundamental issue and gain a greater understanding of women's issues religious conflicts political Islam human rights and the struggle for democracy in the Middle East The Day Turkey Stood Still will be required reading for any academic who wants to understand the dynamics and undercurrents of Turkish politics today      **Identity Politics Inside Out** Lisel Hintz, 2018-08-28 The trajectory of Turkey's Justice and Development Party AKP rule offers an ideal empirical window into puzzling shifts in Turkey's domestic politics and foreign policy The policy transformations under its leader Recep Tayyip Erdogan do not align with existing explanations based on security economics institutions or identity In Identity Politics Inside Out Lisel Hintz teases out the complex link between identity politics and foreign policy using an in depth study of Turkey Rather than treating national identity as cause or consequence of a state's foreign policy she repositions foreign policy as an arena in which contestation among competing proposals for national identity takes place Drawing from a broad array of sources in popular culture social media interviews surveys and archives she identifies competing visions of Turkish identity and theorizes when and how internal identity politics becomes externalized Hintz examines the establishment of Republican Nationalism in the wake of imperial collapse and examines failed attempts made by those challenging its Western oriented anti ethnic secularist values with alternative understandings of Turkishness She further demonstrates how the Ottoman Islamist AKP used the European Union accession process to weaken Republican Nationalist obstacles in Turkey thereby opening up space for Islam in the domestic sphere and a foreign policy targeted at achieving leadership in the Middle East By showing how the inside out spillover of national identity debates can reshape foreign policy Identity Politics Inside Out fills a major gap in existing scholarship by closing the identity foreign policy circle      *Religion and Broken Solidarities* Atalia Omer, Joshua Lupo, 2022-12-15 The contributors to

this original volume provide a new and nuanced approach to studying how discourses of religion shape public domains in sites of political contestation and broken solidarities Our public discourse is saturated with intractable debates about religion race gender and nationalism Examples range from Muslim women and headscarves to Palestine Israel and to global anti Black racism along with other pertinent issues We need fresh thinking to navigate the questions that these debates raise for social justice and solidarity across lines of difference In *Religion and Broken Solidarities* the contributors provide powerful reflections and wisdom to guide how we can approach these questions with deep ethical commitments intersectional sensibilities and intellectual rigor *Religion and Broken Solidarities* traces the role of religious discourse in unrealized moments of solidarity between marginalized groups who ostensibly share similar aims Religion the contributors contend cannot be separated from national racial gendered and other ways of belonging These modes of belonging make it difficult for different minoritized groups to see how their struggles might benefit from engagement with one another The four chapters which interpret historical and contemporary events with a sharp and critical lens examine accusations of antisemitism and anti Muslim racism in the Women s March in Washington DC the failure of feminists in Iran and Turkey to realize a common cause because of nationalist discourse concerning religiosity and secularity Black Catholics seeking to overcome the problems of modernity in the West and the disjunction between the Palestinian and Mizrahi cause in Palestine Israel Together these analyses show that overcoming constraints to solidarity requires alternative imaginaries to that of the modern nation state Contributors Atalia Omer Joshua Lupo Perin E Grel Julianne Hammer Ruth Carmi Brenna Moore and Melani McAlister

**REFASHIONING MUSLIMS** Merve Kütük-Kuriş,2025-02-13      **Mainstreaming the Headscarf** Esra Özcan,2019-11-14 With the rise to power of the Justice and Development Party AKP in the early 2000s in Turkey the headscarf that used be looked down upon by the secular middle and upper classes moved to the mainstream It has since become a symbol of desirable womanhood This development has pushed Turkey s secular feminists who had been critical of the headscarf ban to the margins This book is the first to trace this new phase of conservative gender politics by examining the images of women s headscarves across secular and Islamic news media Based on the analysis of photographs and the columns of conservative women journalists the book sheds light on how the AKP is transforming the image of womanhood It also identifies the rise of the conservative female journalist as an important phenomenon in the country Esra zcan problematizes designators such as Islamist women or Islamic feminists and instead aims to understand these women in terms of their commitment to right wing activism and politics which has so far been ignored An original contribution to feminist scholarship on Muslim women this book draws on the unique perspectives of Visual Culture and Communication Studies

**Beyond Headscarf Culture in Turkey's Retail Sector** F. Sayan-Cengiz,2016-04-08 The headscarf issue draws a great

deal of public and academic attention in Turkey yet the debate largely unfolds within the contours of the discussions over modernization Westernization and the Islamic secular divide Rarely is there a discussion about how the connotations of the headscarf shift across cleavages of class and status among women wearing it Instead the headscarf is typically portrayed as a symbol of Islamic identity a cover that brackets social inequalities other than those based on a supposed clash of identities This study looks beyond these contours by contextualizing the headscarf discussion in an insecure and low status private sector labor market namely retail sales Based on in depth interviews focus groups with lower middle class saleswomen with headscarves and ethnographic study in five cities of Turkey this book argues that the meanings of the headscarf are continuously negotiated within the quest for social and economic security *Refashioning Secularisms in France and Turkey* Amelie Barras, 2014-04-24 Over the past few years secularism has become an intrinsic component of discussions on religious freedom and religious governance The question of whether states should restrict the wearing of headscarves and other religious symbols has been particularly critical in guiding this thought process *Refashioning Secularisms in France and Turkey* documents how in both countries devout women have contested bans on headscarves pointing to how these are inconsistent with the real spirit of secularism These activists argue that it is possible to be simultaneously secular and religious to believe in the values conveyed by secularism while still remaining devoted to their faith Through this examination the book highlights how activists locate their claims within the frame of secularism while at the same time revisiting it to craft a space for their religiosity Addressing the lacuna in literature on the discourse of devout Muslims affected by these restrictions this book offers a topical analysis on an understudied dimension of secularism and is a valuable resource for students and researchers with an interest in Religion Gender Studies Human Rights and Political Science **The New Turkey** Chris Morris, 2014-05-01 Updated since the decision to begin Turkey's admission to the European Union Turkey is a country in a state of flux swept along by an extraordinary process of change In the last few years a series of far reaching political and economic reforms has swept away much of the old order which ruled the country for so long Some people call it a second Turkish revolution But resistance to reform remains strong Pressure for change has come from ordinary people fed up with the old ways it's also been motivated by the dominant issue of Turkish political life the long pursuit of membership of the European Union And yet Turkey remains a mystery to many outsiders a complex country hard to understand It's secular and Muslim Western and Eastern democratic and authoritarian all at the same time This book examines the potential and the problems of the new Turkey and the expectations of the people who live there drawing on first hand interviews and observations gathered over several years *The JDP and Making the Post-Kemalist Secularism in Turkey* Pinar Kandemir, 2022-07-21 This book is an analytical study of secularism in contemporary Turkey by tracing its historical trajectory within the context of political transformation in a country that experienced a social and cultural rupture in its formative years Its principal focus is on the policies and practices of the current ruling party the Justice and Development

Party JDP which has influenced the process of change evolution and transformation with regard to secularism and state policies toward religion Following its foundation in 2001 the JDP developed a unique approach to conceptualising the relationship between state and religion In contrast to other mainstream parties and political positions both in the past and present it offers an alternative vision and model to that of inherited Kemalist secularism as formulated by Mustafa Kemal Atatürk the founder of modern Turkey and refined by his close associates in the formative period of the Republic The project draws its findings from in depth interviews with members of political parties civil society activists and religious leaders

**Leaving Islam, Ex-Muslims and Zemiology** Weronika Lenartowicz,2024-02-28 Cases of ex Muslims in Europe being punished by their former fellow Muslims constitute an unacceptable practice from the standpoint of democratic societies in which human rights are respected and individuals have the freedom to choose their religion or none at all Ex Muslims fear of punishment by their former community should prompt an open candid and measured discussion of the issue Leaving Islam Ex

Muslims and Zemiology presents the reasons for and consequences of consciously leaving Islam based on interviews with 80 ex Muslims currently living in Germany and Sweden In their view many of the practices and beliefs of Islam are harmful and unfair Many parts of the Islamic world regard apostasy as treason or a crime As a result emphasis in the book is shifted from crime to harm and a thesis is put forward concerning the decriminalization of apostasy from the perspective of zemiology The book highlights how a broader shift of interest in the democratic structures of Europe could allow ex Muslims to join the discussion on the guaranteed right to religious liberties and freedom of speech in the context of the apostasy law in Islam This should happen without fear for their own security and without facing potential suppression or social exclusion It will appeal to scholars with interest in Islam and the conflict between religious values and an individual s aspirations and needs
