

The HUAL D95 is a further development of the popular HUAL D90, but it does everything a better. Both cranes look very similar, but that's where the similarities cease.

The HUAL D95 features a new, low-headroom boom system with a separate telescopic cylinder on each extension, we have done away with all moving on the outer boom and extensions and reduced the need for a hook attachment to just one - on the outer extension. All this leads to easier handling in confined areas and more stable loads. Consistently reduced friction and give smoother boom action.

The HUAL D95's working geometry has been optimised, resulting in better lifting capacity - in the upper lifting range, capacity has been boosted by over 10%. What's more, the D95 has an amazing close-in lifting height.

The HUAL D95 is a modern general cargo crane in the 10-ton capacity class that offers excellent manoeuvrability. Choose between crane controls, HUAL's well-known 'joystick' version with the new 'computerised' set of three remote-controlled joysticks with HUAL's new 10 and 100-ton control platforms.

The design solutions include bending the oil for the hydraulic cylinders through the cylinder centre, which allows for an endless loading or unloading of the boom base.

The HUAL D95 is a 10-ton crane with a hydraulic boom of around 17.5 metres.

A pressure to operate and work with the ControlD95 10 remote control, or its joystick, the most advanced ControlD95.
