The SAGE Encyclopedia of Contemporary Early Childhood Education Donna Couchenour, J. Kent Chrisman, 2016-03-15 The general public often views early childhood education as either simply babysitting or as preparation for later learning. Of course both viewpoints are simplistic. Deep understanding of child development best educational practices based on development emergent curriculum cultural competence and applications of family systems are necessary for high quality early education. Highly effective early childhood education is rare in that it requires collaboration and transitions among a variety of systems for children from birth through eight years of age. The SAGE Encyclopedia of Contemporary Early Childhood Education presents in three comprehensive volumes advanced research accurate practical applications of research historical foundations and key facts from the field of contemporary early childhood education. Through approximately 425 entries this work includes all areas of child development physical cognitive language social emotional aesthetic as well as comprehensive review of best educational practices with young children effective preparation for early childhood professionals and policy making practices and addresses such questions as How is the field of early childhood education defined? What are the roots of this field of study? How is the history of early childhood education similar to yet different from the study of public education? What are the major influences on understandings of best practices in early childhood education? *Early Childhood Curriculum* Nancy Amanda Branscombe, Jan Gunnels Burcham, Kathryn Castle, Elaine Surbeck, 2013-07-24 Through its unique integration of curriculum and learning principles *Early Childhood Curriculum: A Constructivist Perspective* 2nd Edition fosters authentic developmentally appropriate practice for both preschool and early elementary classrooms. The constructivist format of this book encourages active involvement on the part of readers by asking them to observe question reflect research and analyze thus allowing readers to create their own knowledge through their responses and actions. Early

Childhood Curriculum examines curricular goals such as autonomy development and problem solving and links those goals with constructivist principles of learning. It explores ways teachers can create meaningful learning environments and choose curriculum tasks appropriately in all content areas that are linked to the learning and development needs of young children. The text provides a wealth of practical detail about implementing constructivist curriculum as the authors discuss classroom climate and management, room design, play and cooperative learning among other topics. The book also includes information about how teachers can meet required mandates and national and state standards in appropriate ways as they plan their curriculum and examines the early childhood educator's role with community agencies, reform and legal mandates and public relations. Special Features Curriculum Strategies highlight models for developing curriculum including projects, curricular alignment, integration of various subject matter areas and types of knowledge. Constructions promote problem solving by allowing students to explore, revisit, examine and learn from first hand experience. Multiple Perspectives from the Field provide interviews with teachers and other early childhood professionals offering students a realistic look at the profession from a diverse group of educators. Teacher Dialogues explore a wide range of student concerns including curriculum, learning environments, assessment and documentation, representing a collaborative support group for pre-service teachers and readers.

International Perspectives on Early Childhood Education and Care Jan Georgeson, Jane Payler, 2013-02-16

There is a growing interest in understanding how early years care and education is organised and experienced internationally. This book examines key influential approaches to early years care as well as some less well known systems from around the world. In particular, the book aims to inform those studying early years about perspectives in other countries, encourage critical thinking about issues, influences and the complexities of early years provision around the world, promote critical reflection on students' own provision and the current context of that provision. Each chapter provides an overview of early years provision and explores historical and current influences in context as well as offering insights into daily life through short vignettes, longer case studies and commentary from practitioners. Whilst many approaches such as Reggio Emilia, Te Whāriki and Head Start are widely admired, it is important for reflective practitioners to understand the motivation which gave rise to these influential approaches in their original context. Additionally, broadening understanding through information on less widely known systems, the book provides students with a good grounding in the international context of early years, the provenance of different early years approaches and principles and the influences on their own countries' provision. Written in a straightforward and accessible style, the book is designed to meet the needs of students studying modules related to international perspectives on a range of foundation, bachelor and master's degrees in early years.
