Energize the High School Classroom Paul Richmond, 2008-10-01 There is so much more to teaching today than simply teaching. Prepping for multiple courses, grading papers, duties, coaching class, advising, lack of parental support, limited administrative support, etc. These distractions make it more and more difficult to find the time to sustain a level of creativity in the classroom. Everyone could use a playbook—something to refer to that provides that specific spark or research that can enhance the classroom experience. This book will provide you with ways to deliver curriculum, not organize it. The best material in the world is often ignored by students because of the method it is delivered. You may even discover that after reading and implementing ideas from this book, you will begin to surprise yourself with additional ideas of your own.
