CRESST Report 774 Terry P. Vendlinski,Girlie C. Delacruz,Rebecca E. Buschang,Gregory K. W. K. Chung,Eva L. Baker,2010 The evaluation of educational interventions requires assessments that consistently reliably produce data from which accurate valid inferences about the test subjects can be made for some stated purpose Despite codified definitions of all these terms there remains vibrant debate about the assessment design process and how measures of technical quality should be determined and reported More importantly there seems to be little consistency in the process of developing assessment items that demonstrate consistently high technical quality and that are conceptually aligned with instruction We present a process rooted in the work of Baker 1974 in which a theory of learning drives the development of knowledge specifications that then drive the integrated development of assessment items and forms and instructional materials In this case the instruction is in the form of an educational video game about adding rational numbers We discuss the development of the knowledge and item specifications an initial version of the instructional game based on these specifications and report the consistently high technical quality internal consistency and test retest reliability Cronbach s alpha of 0.9 to 0.94 We

discuss as well the ability of pretest measures to predict subsequent student performance inferential validity Spearman's rho of 0.69 in the game and on similarly developed assessment measures Alignment between the instructional game and assessment items is also discussed Appendices include 1 Knowledge Specifications and 2 Puppetman Screen Shots from the First Version Tested with Students Contains 7 tables and 5 footnotes This work was supported under the Educational Research and Development Centers Program PR Award Number R305C080015 M-Step Grade 8 Social Studies Success Strategies Study Guide M-Step Exam Secrets Test Prep, 2018-04-12 M STEP Grade 8 Social Studies Success Strategies helps you ace the Michigan Student Test of Educational Progress without weeks and months of endless studying Our comprehensive M STEP Grade 8 Social Studies Success Strategies study guide is written by our exam experts who painstakingly researched every topic and concept that you need to know to ace your test Our original research reveals specific weaknesses that you can exploit to increase your exam score more than you've ever imagined M STEP Grade 8 Social Studies Success Strategies includes The 5 Secret Keys to M STEP Success Time is Your Greatest Enemy Guessing is Not Guesswork Practice Smarter Not Harder Prepare Don't Procrastinate Test Yourself A comprehensive General Strategy review including Make Predictions Answer the Question Benchmark Valid Information Avoid Fact Traps Milk the Question The Trap of Familiarity Eliminate Answers Tough Questions Brainstorm Read Carefully Face Value Prefixes Hedge Phrases Switchback Words New Information Time Management Contextual Clues Don't Panic Pace Yourself Answer Selection Check Your Work Beware of Directly Quoted Answers Slang Extreme Statements Answer Choice Families Along with a complete in depth study guide for your specific M STEP exam and much more **Great Source ACCESS History** Great Source, 2004-12-14 Student Book hardcover text with a clear accessible design Teacher's Edition step by step support differentiated instruction and teaching tips Student Activity Journal content vocabulary and skills practice Teacher's Edition available Assessment Book content area and vocabulary assessment and progress records Assessment Folder a place to track students ongoing language development one sample for the teacher Overhead Transparencies for whole group instruction
