weaker mathematical abilities should spend the same amount of time mastering basic mathematics. Once they reach the level required for their chosen profession or further studies, they can stop rather than forcing themselves to study mathematics in higher grades. 4 By utilizing public assessments, we can reduce the workload of teachers, thereby reducing the future demand for mathematics teachers. This allows talented individuals who are capable of dedicating themselves to mathematics education to contribute to an ever-expanding reservoir of mathematical knowledge, facilitating the continuous development of the mathematical field.
