EdPsych Modules Cheryl Cisero Durwin,Marla Reese-Weber,2020-01-07 EdPsych Modules uses an innovative modular approach and case studies based on real life classroom situations to address the challenge of effectively connecting theory and research to practice Succinct stand alone modules are organized into themed units and offer instructors the flexibility to tailor the book s contents to the needs of their course The units begin with a set of case studies written for early childhood elementary middle and secondary classrooms providing students with direct insight into the dynamics influencing the future students they plan to teach All 25 modules highlight diversity emphasizing how psychological factors adapt and change based on external influences such as sex gender race language disability status and socioeconomic background The Fourth Edition includes over three hundred new references across all 25 modules and expanded coverage of diversity in new diversity related research This title is accompanied by a complete teaching and learning package Speaking of Race Jennifer B. Delfino,2020-12-04 Speaking of Race explores the linguistic practices of African American children in an after school program in Washington DC Drawing on ethnographic research Jennifer B Delfino illustrates how students linguistic practices are often perceived as barriers to learning and achievement and provides an in depth look at how students challenge this perception by using language to transform the meaning of race in relation to ideas about academic success In providing insight into the institutionalized processes by which African American children are seen and heard as problem students this book helps scholars and practitioners better support marginalized pupils in their efforts to achieve racial transformation and educational justice in schools **Capturing the Wisdom of Practice** Giselle Martin-Kniep,1999-09-15 What do

professional portfolios consist of Who are their audiences Why should teachers and administrators use them How are they structured In Capturing the Wisdom of Practice Giselle Martin Kniep answers these and other questions drawing on her work with more than 3 000 teachers and administrators from 400 school districts Through excerpts from actual portfolios Martin Kniep illustrates how to select a range of artifacts that will lead portfolio developers to evaluate and improve their work She also discusses using portfolios for key purposes learning curriculum development and assessment research and staff development Readers will find many practical strategies for building and using portfolios and learn what conditions are

needed for success I am absolutely convinced says Martin Kniep that every professional who uses portfolios in a serious way will become a better teacher or administrator Note This product listing is for the Adobe Acrobat PDF version of the book

The Math Pact, High School Barbara J. Dougherty, Sarah B. Bush, Karen S. Karp, 2020-09-19 A schoolwide solution for students mathematics success Do you sometimes start to teach a mathematics concept and feel like you re staring at a sea of bewildered faces What happens when you discover students previously learned a calculation trick or a mnemonic that has muddled their long term understanding When rules seem to change from year to year teacher to teacher or school to school mathematics can seem like a disconnected mystery for students Clear up the confusion with a Mathematics Whole School Agreement Expanded from the highly popular Rules that Expire series of NCTM articles this essential guide leads educators through the collaborative step by step process of establishing a coherent and consistent learner centered and equitable approach to mathematics instruction Through this work you will identify streamline and become passionate about using clear and consistent mathematical language notations representations rules and generalizations within and across classrooms and grades Importantly you ll learn to avoid rules that expire tricks that may seem to help students in one grade but hurt in the long run Features of this book include Abundant grade specific examples Effective working plans for sustainability Barrier busting tips to dos and try it outs Practical templates and checklists PLC prompts and discussion points When teachers unite across grades students hit the ground running every year Take the next step together as a team and help all your students build on existing understanding to find new success and most importantly love learning and doing mathematics Spectrum Test Prep, Grade 5 Spectrum, 2015-01-05 Spectrum Test Prep Grade 5 includes strategy based activities for language arts and math test tips to help answer questions and critical thinking and reasoning The Spectrum Test Prep series for grades 1 to 8 was developed by experts in education and was created to help students improve and strengthen their test taking skills The activities in each book not only feature essential practice in reading math and language arts test areas but also prepare students to take standardized tests Students learn how to follow directions understand different test formats use effective strategies to avoid common mistakes and budget their time wisely Step by step solutions in the answer key are included These comprehensive workbooks are an excellent resource for developing skills for assessment success Spectrum the best selling workbook series is proud to provide quality educational materials that support your students learning achievement and success **Exploring childhood in a comparative context** Mabel Ann Brown, Jon White, 2013-09-05 Exploring Childhood in a Comparative Context meets an increasing need for students focusing on early childhood to be familiar with alternative practices in other countries Providing a ready made source of information about a wide range of countries including Finland the Netherlands the United States New Zealand Japan South Africa and many more the book clearly describes the way each country understands and conceptualises childhood Each chapter includes contextual information about the country an introduction to the theory that has shaped practice and describes the curriculum for pre school and

primary education Including vignettes from practitioners working in each country to illustrate practice the chapters explore key themes such as Child development Parental involvement Teaching and learning Professionalism Assessment Pupil experience Accessibly written and including opportunities for reflection this timely new book will give students a valuable insight into alternative education systems that is essential if they are to become practitioners with a current and global approach
