An East Asian Challenge to Western Neoliberalism Niv Horesh, Kean Fan Lim, 2017-08-03 Analysts generally agree that in the long term the biggest challenge to American hegemony is not military but rather China s economic rise This perception is spread in no small measure because Xi Jinping has in the face of patent military inferiority conducted himself much more boldly on the world stage than Hu Jintao Meanwhile China has also begun conjuring up an alternative vision for global leadership now widely termed as the China model This book therefore offers a critical and comprehensive explanation of the China model and its origins Using a range of case studies covering varying historical and geographical approaches it debates whether the Chinese experience in the last three decades of economic reform should be interpreted as an answer to the reigning hegemony of neoliberalism or rather a further reinforcement of it To answer these questions it provides an investigation into what China may have learned from its East Asian neighbours earlier economic successes It also examines how it is responding to and might even reconfigure the world political economic system as it develops fresh and potentially more powerful regulatory capacities Providing a multi dimensional analysis of the China model the book will be of interest to students and scholars of Chinese Economics Economic Geography and Chinese Studies
