Clinical Reasoning and Decision Making in Physical Therapy Gina Musolino, Gail Jensen, 2024-06-01 Clinical reasoning is an essential non negotiable element for all health professionals The ability of the health professional to demonstrate professional competence compassion and accountability depend on a foundation of sound clinical reasoning The clinical reasoning process needs to bring together knowledge experience and understanding of people the environment and organizations along with a strong moral compass in making sound decisions and taking necessary actions While clinical reasoning and the role of mentors has been a focus of the continued growth and development of residency programs in physical therapy there is a critical need to have a broader in depth look at how educators across academic and clinical settings intentionally facilitate the development of clinical reasoning skills across one's career Clinical Reasoning and Decision Making in Physical Therapy Facilitation Assessment and Implementation fills this need by providing a comprehensive and in depth focus on development of the patient client management skills of clinical reasoning and clinical decision making It takes into account teaching and learning strategies assessment and technological applications across the continuum from novice to residents fellows in training along with academic and clinical faculty for both entry level and specialist practice Drs Gina Maria Musolino and Gail Jensen have designed this comprehensive resource with contributions from professional colleagues The text centers on life long learning by encouraging the development of clinical reasoning abilities from professional education through residency education The aim and scope of the text is directed for physical therapy education to enhance clinical reasoning and clinical decision making for developing professionals and post professionals in both clinical and academic realms and for the development of clinical and academic faculty Clinical Reasoning and Decision Making in Physical Therapy uniquely offers both evidence based approaches and pragmatic consultation from award winning authors with direct practice experiences developing and implementing clinical reasoning clinical decision making in practice applications for teaching students residents patients and clinical academic faculty in classrooms clinics and through simulation and telehealth Clinical Reasoning and Decision Making in Physical Therapy is the first of its kind to address this foundational element for practice that is key for real world practice and continuing competence as a health care professional Physical therapy and physical therapist assistant students faculty and clinicians will find this to be an invaluable resource to enhance their clinical reasoning and decision making abilities ATI TEAS Strategies, Practice & Review with 2 Practice Tests Kaplan Nursing, 2017-01-03 Provides comprehensive exam review as well as test taking strategies and study techniques *Principles and Practice of Case-based Clinical Reasoning Education* Olle ten Cate, Eugène J.F.M. Custers, Steven J. Durning, 2017-11-06 This book is open access under a CC BY 4.0 license This volume describes and explains the educational method of Case Based Clinical Reasoning CBCR used successfully in medical schools to prepare students to think like doctors before they enter the clinical arena and become engaged in patient care

Although this approach poses the paradoxical problem of a lack of clinical experience that is so essential for building proficiency in clinical reasoning CBCR is built on the premise that solving clinical problems involves the ability to reason about disease processes This requires knowledge of anatomy and the working and pathology of organ systems as well as the ability to regard patient problems as patterns and compare them with instances of illness scripts of patients the clinician has seen in the past and stored in memory CBCR stimulates the development of early rudimentary illness scripts through elaboration and systematic discussion of the courses of action from the initial presentation of the patient to the final steps of clinical management The book combines general backgrounds of clinical reasoning education and assessment with a detailed elaboration of the CBCR method for application in any medical curriculum either as a mandatory or as an elective course It consists of three parts a general introduction to clinical reasoning education application of the CBCR method and cases that can be used by educators to try out this method

Introduction to Research in the Health Sciences Stephen Polgar, BSc(Hons), MSc, Shane A. Thomas, 2013-09-16. This popular textbook provides a concise but comprehensive overview of health research as an integrated problem solving process. It bridges the gap between health research methods and evidence based clinical practice, making it an essential tool for students embarking on research. Practitioners also benefit from guidance on interpreting the ever expanding published research in clinical and scientific journals to ensure their practice is up to date and evidence based and to help patients understand information obtained online. This textbook would be of interest and value both to undergraduate and post graduate students also. Reviewed by Dr Richard Ellis on behalf of the New Zealand Journal of Physiotherapy, January 2015, excellent at giving an introduction and overview into research methods. Reviewed by Tobias Bremer on behalf of InTouch, July 2015. Uses simple language and demystifies research jargon. Covers both quantitative and qualitative research methodology taking a very practical approach. Gives examples directly related to the health sciences. Each chapter contains a self assessment test so that the reader can be sure they know all the important points. Provides an extensive glossary for better understanding of the language of research. Online interactive self assessment tests. Multiple choice questions. True or false questions. Short answer questions. Log on to evolve.elsevier.com Polgar research and register.
