International Edition Vs Us:

Us vs. Them Ian Bremmer, 2018-04-24 New York Times bestseller A cogent analysis of the concurrent Trump Brexit phenomena and a dire warning about what lies ahead a lucid provocative book Kirkus Reviews Those who championed globalization once promised a world of winners one in which free trade would lift all the world's boats and extremes of left and right would give way to universally embraced liberal values The past few years have shattered this fantasy as those who've paid the price for globalism's gains have turned to populist and nationalist politicians to express fury at the political media and corporate elites they blame for their losses The United States elected an anti immigration protectionist president who promised to put America first and turned a cold eye on alliances and treaties Across Europe anti establishment political parties made gains not seen in decades The United Kingdom voted to leave the European Union And as Ian Bremmer shows in this eye opening book populism is still spreading Globalism creates plenty of both winners and losers and those who've missed out want to set things right They've seen their futures made obsolete They hear new voices and see new faces all about them They feel their cultures shift They don't trust what they read They've begun to understand the world as a battle for the future that pits us vs them Bremmer points to the next wave of global populism one that hits emerging nations before they have fully emerged As in Europe and America citizens want security and prosperity and they're becoming increasingly frustrated with governments that aren't capable of providing them To protect themselves many governments will build walls both digital and physical For instance In Brazil and other fast developing countries civilians riot when higher expectations for better government aren't being met the downside of their own success in lifting millions from poverty In Mexico South Africa Turkey Indonesia Egypt and other emerging states frustration with government is on the rise and political battle lines are being drawn In China where awareness of inequality is on the rise the state is building a system to use the data that citizens generate to contain future demand for change In India the tools now used to provide essential services for people who've never had them can one day be used to tighten the ruling party's grip on power When human beings feel threatened we identify the danger and look for allies We use the enemy real or imagined to rally friends to our side This book is about the ways in which people will define these threats as fights for survival It's about the walls governments will build to protect insiders from outsiders and the state from its people And it's about what we can do about it *International Direct Marketing* Manfred Krafft, Jürgen Hesse, Jürgen Höfling, Kay Peters, Diane Rinas, 2007-10-14 Direct marketing is a fast growing and dominant domestic marketing instrument in many countries Direct marketing follows the path of the rapid advances of globalization international direct marketing IDM is already a multi billion dollar business and an attractive instrument for foreign market entry and international customer communication This book is the first to focus exclusively on IDM combining state of the art knowledge best practice and unique data The first part is a comprehensive well structured review covering relevant sources ranging from academic journals to practitioner magazines The second part consists of best

practice examples of various aspects of IDM The third part contains a summary of a proprietary consumer study on direct marketing attitudes and affinities across 24 countries in North America Europe and Asia The book provides the reader with a comprehensive and easy to understand guide to international direct marketing
