**Lucy Tour Guide Yangshao:**

**The Invention of China** Bill Hayton, 2020-10-13 A provocative account showing that China and its 5 000 years of unified history is a national myth created only a century ago with a political agenda that persists to this day China s current leadership lays claim to a 5 000 year old civilization but China as a unified country and people Bill Hayton argues was created far more recently by a small group of intellectuals In this compelling account Hayton shows how China s present day geopolitical problems the fates of Hong Kong Taiwan Tibet Xinjiang and the South China Sea were born in the struggle to create a modern nation state In the late nineteenth and early twentieth centuries reformers and revolutionaries adopted foreign ideas to invent a new vision of China By asserting a particular politicized version of the past the government bolstered its claim to a vast territory stretching from the Pacific to Central Asia Ranging across history nationhood language and territory Hayton shows how the Republic s reworking of its past not only helped it to justify its right to rule a century ago but continues to motivate and direct policy today
