

There are three different large cap HEI distributors. To identify which of the following diagrams fit your specific application, remove the distributor cap and rotor and locate the ignition module at the base of the distributor. Count the number of terminals on both ends of the module and follow the corresponding diagram. GM used 4, 5, and 7-pin modules in these distributors.

NOTE: Some 5-pin modules may experience a hesitation or stall on deceleration. If this occurs, contact the Mallory Technical Service Department for the required bolt-in diode to correct the problem.
