Vishwadharmi Prof. Dr. Vishwanath D. Karad – A Great Visionary Philosopher Scientist Rahul Vishwanath

Karad,2022-02-22 Early in 1981 the visionary in Dr Vishwanath D Karad saw the need for unaided engineering colleges to cater to the demand of India that was rapidly rising in aspirations In the subsequent years the state of Maharashtra and indeed the entire nation put brick and mortar to this vision to the point that today India produces 1 5 million engineering graduates per year the majority of them from unaided institutions This has helped India to be the biggest exporter of white collar jobs globally since the turn of the century The educationist scientist spiritualist philanthropist education builder humanist and peace ambassador put all his experiences together in recent years to make the world s largest dome the dome at Vatican City Rome Italy is now second placed and the world s first peace dome which will likely end up being the eighth wonder of the world This book is a collection of testimonials written by esteemed personalities of our society for this living jewel of India

Basic Mechanical Engineering Anup Goel,2021-01-01 Mechanical engineering as its name suggests deals with the mechanics of operation of mechanical systems This is the branch of engineering which includes design manufacturing analysis and maintenance of mechanical systems It combines engineering physics and mathematics principles with material science to design analyse manufacture and maintain mechanical systems This book covers the field requires an understanding of core areas including thermodynamics material science manufacturing energy conversion systems power transmission systems and mechanisms My hope is that this book through its careful explanations of concepts practical examples and figures bridges the gap between knowledge and proper application of that knowledge

Untold Journey of a Soldier Colonel Anurag Bahukhandi,2024-11-26 In this compelling autobiography the author recounts a journey through the lesser known yet equally vital aspects of military life Untold Journey of a Soldier delves into the technical and administrative challenges faced in the line of duty revealing the grit and resilience required to overcome obstacles With candid reflections and practical tips this book serves as both an engaging narrative and a valuable guide for those seeking to navigate the complexities of technical and administrative aspects of military as well as civil jobs Join the author as he illuminate the path from anonymity to triumph showcasing the strength of the human spirit in the face of adversity

FUNDAMENTALS OF MECHANICAL ENGINEERING SAWHNEY, G. S.,2015-06-30 Written with the first year engineering students of undergraduate level in mind the well designed textbook now in its Third Edition explains the fundamentals of mechanical engineering in the area of thermodynamics mechanics theory of machines strength of materials and fluid dynamics As these subjects form a basic part of an engineer s education this text is admirably suited to meet the needs of the common course in mechanical engineering prescribed in the curricula of almost all branches of engineering This revised edition includes a new chapter on Fluid Dynamics to meet the course requirement Key Features Presents an introduction to basic mechanical engineering topics required by all engineering students in their studies Includes a series of objective type question True and

False Fill in the Blanks and Multiple Choice Questions with explanatory answers to help students in preparing for competitive examinations Provides a large number of solved problems culled from the latest university and competitive examination papers which help in understanding theory Advanced Computing Deepak Garg,Joel J. P. C. Rodrigues,Suneet Kumar Gupta,Xiaochun Cheng,Pushpender Sarao,Govind Singh Patel,2024-03-25 The two volume set CCIS 2053 and 2054 constitutes the refereed post conference proceedings of the 13th International Advanced Computing Conference IACC 2023 held in Kolhapur India during December 15 16 2023 The 66 full papers and 6 short papers presented in these proceedings were carefully reviewed and selected from 425 submissions The papers are organized in the following topical sections Volume I The AI renaissance a new era of human machine collaboration application of recurrent neural network in natural language processing AI content detection and time series data analysis unveiling the next frontier of AI advancement Volume II Agricultural resilience and disaster management for sustainable harvest disease and abnormalities detection using ML and IOT application of deep learning in healthcare cancer detection using AI **REFRIGERATION AND AIR CONDITIONING** S. N. SAPALI,2013-11-13 This book is designed for a first course in Refrigeration and Air Conditioning The subject matter has been developed in a logical and coherent manner with neat illustrations and a fairly large number of solved examples and unsolved problems The text developed from the author s teaching experience of many years is suitable for the senior level undergraduate and first year postgraduate students of mechanical engineering automobile engineering as well as chemical engineering The text commences with an introduction to the fundamentals of thermo dynamics and a brief treatment of the various methods of refrigeration Then follows the detailed discussion and analysis of air refrigeration systems vapour compression and vapour absorption refrigeration systems with special emphasis on developing sound physical concepts and gaining problem solving skills Refrigerants are exhaustively dealt with in a separate chapter The remainder chapters of the book deal with psychrometry and various processes required for the analysis of air conditioning systems Technical descriptions of compressors evaporators condensers expansion devices and ducts are provided along with design practices for cooling and heating load calculations The basic principles of cryogenic systems and applications of cryogenic gases and air liquefaction systems have also been dealt with The Second Edition incorporates a New sections on vortex tube solar refrigeration and magnetic refrigeration in Chapter 2 b Additional solved examples on vapour compression refrigeration system using the R134a refrigerant in Chapter 4 c New sections on duct arrangement systems and air distribution systems in Chapter 15 d A new Chapter 17 on Food Preservation **Innovative Design, Analysis and Development Practices in Aerospace and Automotive Engineering (I-DAD 2018)** U. Chandrasekhar,Lung-Jieh Yang,S. Gowthaman,2018-12-14 The book includes the best articles presented by researchers academicians and industrial experts at the International Conference on Innovative Design and Development Practices in Aerospace and Automotive Engineering I DAD 2018 The book discusses new concept in designs and analysis and manufacturing technologies for improved performance through specific and or multi

functional design aspects to optimise the system size weight to strength ratio fuel efficiency and operational capability Other aspects of the conference address the ways and means of numerical analysis simulation and additive manufacturing to accelerate the product development cycles Describing innovative methods the book provides valuable reference material for educational and research organizations as well as industry wanting to undertake challenging projects of design engineering and product development
