

Course: Critical Thinking, Philosophy 1010

Study Guide: Midterm (Covers Chapters 1-3)

• Week 1:

• Critical Thinking

- **Critical Thinking** is the skill of being able to correctly evaluate arguments that are made by others and compose a good argument of your own
- You must use good reasoning when you're trying to use critical thinking skills and be able to determine what reasonings are better than others

• Arguments

- **Arguments** are attempts to provide reasons for thinking that a certain belief or view is true.
- all arguments have two parts:
 - The reasons
 - The belief that those reasoning's are intended to be supporting
- **Premises** are the reasons of an argument
- **Conclusions** are the beliefs being supported in an argument

Example: "Over the next three months, the temperature will rise. Georgia will have an increase in temperature and drought."

Conclusion

Premise

• Statements

- **Statements** are sentences that make a claim which can either be true or false
- Every argument has two statements and **both the premises and**

Example: Are these all statements?

1. Read the next chapter for homework. [Instruction]
2. Did you do the homework? [Question]
3. A dog is an animal. [Statement]
4. Georgia State University is a college. [Statement]

• Statements vs Sentences

- Not all sentences are statements. There is only one kind of sentence that is considered a statement, that is "declarative" (true or false)
- **A single sentence can contain two or more statements. In some situations two or more sentences may only contain one statement**

• Identifying Arguments

Midterm Study Guide For Critical Thinking
