Wood,Alvaro Cuervo-Cazurra,Pei Sun,Ilya Okhmatovskiy,Anna Grosman,2022-08-01

There has been a major revival of interest in State Capitalism what it is where it is found and why it is seemingly becoming more ubiquitous As a concept it has evolved from radical critiques of the Soviet Union to being deployed by neo liberals to describe market reforms deemed imperfect to settle into a middle ground as a pragmatic way to describe the state assuming a role as an active economic agent in addition to its regulatory social and security functions The latter is the central focus of this book although due attention is accorded to the origins of state capitalism and how it has changed over the years as well as contemporary ways in which state capitalism may be theorized This economic agency may assume direct forms for example via state owned enterprises However it may also be indirect for example actively serving private interests through promoting insider firms who may occupy monopolistic market positions

and perform outsourced state functions In turn this leads to raising salient governance questions The latter may encompass agency tensions between public ownership and political or even private interest control it may also include issues of transparency and monitoring Although state capitalism has often been depicted as the preserve of states in the global south be they developmental or predatory many forms of state capitalism are visible in mature economies be they liberal or coordinated and this is not always associated with superior governance arrangements indeed this is an area where clear and easy divisions between the developing or emerging world and the developed or mature world may increasingly be breaking down This volume brings together the accounts of leading experts from around the world it is explicitly multi disciplinary and both consolidates the existing knowledge base and provides new novel and counter intuitive insights Understanding Multinationals from Emerging Markets Alvaro Cuervo-Cazurra,Ravi Ramamurti,2014-06-26 This book offers the latest analytical thinking on emerging market multinationals EMNCs and identifies key issues for research by scholars and consultants *Portfolio Decisions for Faith-Based Investors* Zaheer Anwer,2021-02-08 This book examines the idiosyncratic risk risk return trade off and payout decisions for faith based investors including Islamic Shariah compliant and ethical investors who may be paying a cost for their belief system in the form of under diversification of portfolios and additional monitoring costs owing to their unique risk profile There is a growing number of investors who are motivated by social environmental and ethical considerations in their investment decisions They apply a set of investment screens to include or exclude assets based on ecological social corporate governance or ethical criteria This socially responsible investment SRI ethical investment or sustainable investment style is prevalent since religious or ethical values matter to investors even if the risk adjusted returns are lower than those of conventional investments The author addresses these issues for Islamic and socially responsible portfolios in detail by using proprietary data of Dow Jones Indices from the United States The findings are a unique and valuable addition to the existing corporate finance portfolio management and Islamic finance literature *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office,1967 Includes Part 1 Number 1 Books and Pamphlets Including Serials and Contributions to Periodicals January June **New Policy Challenges For European Multinationals** Rob van Tulder,Alain Verbeke,Liviu Voinea,2012-11-21 Brings together a variety of scholarly contributions from a European perspective This book covers dimensions of MNE corporate strategy in the face of complex policy environments corporate strategic responses to national policy institutions pro active institution oriented strategies and dynamics of international business government relations
