The Pinch David Willetts,2011-05-01 The baby boom of 1945 65 produced the biggest richest generation that Britain has ever known Today at the peak of their power and wealth baby boomers now run the country by virtue of their sheer demographic power they have fashioned the world around them in

a way that meets all of their housing healthcare and financial needs In this original and provocative book David Willetts shows how the baby boomer generation has attained this position at the expense of their children Social cultural and economic provision has been made for the reigning section of society whilst the needs of the next generation have taken a back seat Willetts argues that if our political economic and cultural leaders do not begin to discharge their obligations to the future the young people of today will be taxed more work longer hours for less money have lower social mobility and live in a degraded environment in order to pay for their parents quality of life Baby boomers worried about the kind of world they are passing on to their children are beginning to take note However whilst the imbalance in the quality of life between the generations is becoming more obvious what is less certain is whether the older generation will be willing to make the sacrifices necessary for a more equal distribution The Pinch is a landmark account of intergenerational relations in Britain It is essential reading for parents and policymakers alike
