Freak Show Presenting Human Oddities For Amusement And Profit:

Freak Show Robert Bogdan, 1988 From 1840 until 1940 freak shows by the hundreds crisscrossed the United States from the smallest towns to the largest cities exhibiting their casts of dwarfs giants Siamese twins bearded ladies savages snake charmers fire eaters and other oddities By today's standards such displays would be considered cruel and exploitative the pornography of disability Yet for one hundred years the freak show was widely accepted as one of America's most popular forms of entertainment Robert Bogdan's fascinating social history brings to life the world of the freak show and explores the culture that nurtured and later abandoned it In uncovering this neglected chapter of show business he describes in detail the flimflam artistry behind the shows the promoters and the audiences and the gradual evolution of public opinion from awe to embarrassment Freaks were not born Bogdan reveals they were manufactured by the amusement world usually with the active participation of the freaks themselves Many of the human curiosities found fame and fortune becoming the celebrities of their time until the ascent of professional medicine transformed them from marvels into pathological specimens

Cross, John K. Walton, 2005 From Sodoms by the sea at Coney Island Blackpool to carefully orchestrated corporate entertainment this new history compares the pursuit of pleasure on both sides of the Atlantic The Transparent Body José van Dijck, 2005 A fascinating discussion of the cultural context and social impact of medical imaging practices Tolerance : Experiments with Freedom in the Netherlands Cees Maris, 2018-08-27 This book presents a collection of philosophical essays on freedom and tolerance in the Netherlands It explores liberal freedom and its

limits in areas such as freedom of speech public reason sexual morality euthanasia drugs policy and minority rights The book takes Dutch practices as exemplary test cases for the principled discussions on these subjects from the perspective of political liberalism Indeed the Netherlands may be viewed as a social laboratory in human tolerance During the Cultural Revolution of the 1960s Holland took the lead in a global emancipation process towards a society based on equal freedom It was the first country to legalize euthanasia soft drugs and gay marriage In the final sections the book examines the question of whether the political murders on the politician Pim Fortuyn and the film director Theo van Gogh the reactions to Ayaan Hirsi Ali s film Submission as well as the success of the populist politician Geert Wilders are signs of the end of Dutch tolerance Although it recognizes that the political climate has taken a conservative turn the book shows that the Netherlands still shows remarkable tolerance **The Human Rights of Persons with Intellectual Disabilities** Stanley S.
