Budgetary Politics in American Governments James J. Gosling, 2006. Budgetary Politics in American Governments unlike most public budgeting texts takes a comparative approach to the subject of public budgeting examining budgetary politics at the federal state and local government levels. Students are introduced to the budgetary decision making process: taxation, spending, budget execution and financial management as well as the budget process at each level of government. Thoroughly updated but preserving much of the third edition's structure and approach, this fourth edition

contains a new chapter that will introduce students to the interrelationship of economics and politics in budgeting. **ESSA Research Laboratories Programs and Resources** United States. Environmental Science Services Administration, 1970
