The book presents multiple variations of suture lift procedures to allow the physician to decide which is best. The book brings together the more popular procedures for patients that include simpler methods of facial rejuvenation with less pain, shorter recovery time, lower cost and fewer complications. **The Skin Type Solution**

Leslie Baumann, 2006 Dermatologist Baumann provides a program that's revolutionizing the way people everywhere think about and shop for skin care. Whereas previous books identified only four basic skin types through clinical research, Dr. Baumann discovered that there are actually sixteen distinctly different skin types, each with unique needs all its own. But caring for your skin doesn't have to be complicated. Dr. Baumann has tested her program on thousands of patients, developing a system that is already transforming dermatology. Now her proven program is available to you. Discover your personal skin type profile, detailing what will work and what won't for your unique complexion; an extensive product guide to name brands suited to every skin type and budget; natural health and dietary advice for beautiful skin; tips on preventing aging and problem skin; the latest information on the new world of prescription products, facials, chemical peels, Retin-A, Botox and collagen injections. From publisher description. **Advanced Surgical Facial Rejuvenation** Anthony Erian, Melvin A.

Shiffman, 2011-10-01 This richly illustrated book covers all aspects of aesthetic facial surgery from anatomy to the variety of procedures employed in facial surgery, including ancillary techniques such as chemical peel, laser and facial fillers. Both newer techniques and variations on older approaches are carefully presented and discussed. In addition, preoperative care is analyzed and detailed attention is devoted to problems related to HIV infection, anesthesia complications and psychological aspects. The contributors are all internationally acclaimed experts in the field. The book will be an invaluable source of information for residents and fellows practicing aesthetic surgeons and surgeons in a variety of related fields.
