IMPORTANT INFORMATION

CLICK THE ARROW, NOT THE HEADSET

It is important to lock the headlamp and protect the switch from being pressed until it is in lock mode. The headlamp can be easily turned on if pressed in something like a backpack, saddle bag or suitcase. The headlamp gets hot while in operation. To prevent potential damage from high heat or sweat flow, it is very important to put the headlamp in lock mode and prevent the switch from being pressed.

Headlight® will not be held responsible for damages to person or property resulting from a failure to follow the "lock" mode instructions.

PROTECTING YOUR INVESTMENT

Properly charge your battery to maximize its lifespan. See the "Battery Charging and Care" section for detailed information.

The Lumina will perform in wet weather conditions, but submerging it in water will damage the system.
