Massey Ferguson Model 40 Service Manual:

Keep on Truckin': 40 Years on the Road Mick Rennison, 2016-03-16 Did the Good Old Days ever really exist Mick Rennison is not so sure After miraculously passing his test in an Atkinson Borderer way back in 1974 Mick drove in the days when crooks and con men seemed to run the haulage industry And Mick worked for most of them Earning crap wages from arrogant bosses with the constant threat of your P45 hanging over your head he learned his trade through trial and error many trials and lots of errors His career took him all over Europe and Scandinavia taking musical shows to Norway JCBs to Greece and supermarket deliveries down to Gibraltar Driving for a variety of firms he double manned trucks with his wife Jo for nearly 10 years Along the way he has been blown over in high winds outwitted hijackers and held hostage by striking Spanish drivers Now living on a narrow boat on the Grand Union Canal Mick is approaching retirement and reflects on his varied career With humour and not a little sarcasm he concludes that as good as those days were he certainly wouldn't want to go back

The Long Haul Pioneers Ashley Coghill, 2020-02-01 It all started in 1964 when two friends gave up promising medical careers to embark upon a journey which few hardened truckers would have considered In so doing they were solely responsible for creating the first long haul overland route across Europe and deep into the Middle East to Kabul The men had started the Middle East Run was to become a phenomenon in the road haulage industry an image which it still holds today This book is about the company founded by one of those men from its fledgling days as Asian Transport to the thriving Astran Cargo Services Ltd that it is today In this book Ashley Coghill documents the complete history of the company to date with the focus predominantly on the early days when the men were fighting for something and revelling in the adventure These early long haul drivers would think nothing of a 10 000 mile round trip to Iran or the Arabian Gulf and being stranded at 6 000 feet on a mountain pass with temperatures below 40 was just all in a day's work Ashley Coghill has an immense enthusiasm for his subject and has given his research total dedication He has also tracked down past and present employees to gather first hand information which he has illustrated with over 300 carefully selected images The end result is a detailed comprehensive and fascinating account of an extraordinary company
