Transfer of Learning Stephen M. Cormier, Joseph D. Hagman, 2014-06-28 Since the mid 1970s scientific and educational research has left a gap in the field of basic and applied research on transfer of learning This book fills the gap with state of the art information on recent research in the field emphasizing methodological paradigms and interpretive concepts based on contemporary cognitive information processing approaches to the study of human behavior Issues discussed include how transfer is

measured how its direction and magnitude are determined how training for transfer differs from training for acquisition and whether different principles of transfer apply to motor cognitive and meta cognitive processes

Dance and Somatics

Julie A. Brodie, Elin E. Lobel, 2014-01-10 Training in somatic techniques holistic body centered movement that promotes awareness and well being provides an effective means of improving dance students efficiency and ease of movement

However dance educators do not always have the resources to incorporate this knowledge into their classes This volume explains the importance of somatics introduces fundamental somatic principles that are central to the dance technique class and offers tips on incorporating these principles into a dance curriculum The authors demystify somatic thinking by explaining the processes in terms of current scientific research By presenting both a philosophical approach to teaching as well as practical instruction tools this work provides a valuable guide to somatics for dance teachers of any style or level
