Word 2007 for Starters: The Missing Manual Chris Grover, 2007-01-25 Fast paced and easy to read this concise book teaches you the basics of Word 2007 so you can start using the program right away Not only will you learn how to work with Word s most useful features to create documents format and edit text share the results and more you ll also discover how to go beyond basic documents to handle graphics create page layouts and use forms and tables The new Word is radically different from previous versions but with this convenient book you can breeze through the new user interface and its timesaving features in no time with Clear explanations Step by step instructions Lots of illustrations Larger type Plenty of friendly advice Word is used primarily for word processing but there s more to this powerful program than meets the eye It also offers a staggering array of advanced features that were once found only in page layout programs and graphics software Many of these features are hidden among Word s cluttered menus and even the pros can t find them all For Word 2007 Microsoft redesigned the user interface completely adding a tabbed toolbar that makes every feature easy to locate

Unfortunately Microsoft s documentation is as poor as ever so even if you find the features you need you still may not know what to do with them Word 2007 for Starters The Missing Manual helps you master Word s redesigned user interface and gives you exactly what you need to create unique attractive and effective documents

Office 2007: The Missing Manual Chris Grover, Matthew MacDonald, E. A. Vander Veer, 2007-04-27 Quickly learn the most useful features of Microsoft Office 2007 with our easy to read four in one guide This fast paced book gives you the basics of Word Excel PowerPoint and Access so you can start using the new versions of these major Office applications right away Unlike every previous version Office 2007 offers a completely redesigned user interface for each program Microsoft has replaced the familiar menus with a new tabbed toolbar or ribbon and added other features such as live preview that lets you see exactly what each option will look like in the document before you choose it This is good news for longtime users who never knew about some amazing Office features because they were hidden among cluttered and outdated menus Adapting to the new format is going to be a shock especially if you re a longtime user That s where Office 2007 The Missing Manual comes in Rather than present a lot of arcane detail this quick friendly primer teaches you how to work with the most used Office features with four separate sections covering the four programs The book offers a walkthrough of Microsoft s redesigned Office user interface before taking you through the basics of creating text documents spreadsheets presentations and databases with Clear explanations Step by step instructions Lots of illustrations Plenty of friendly advice It s a great way to master all 4 programs without having to stock up on a shelf load of different books This book has everything you need to get you up to speed fast Office 2007 The Missing Manual is truly the book that should have been in the box

Word 2007 Connie Morrison, 2007-05-02 If

you're familiar with Word but not Word 2007 this is the book for you Word 2007 Beyond the Manual focuses on features of Word 2007 as well as older features that were once less accessible than they are now This book also makes a point to include examples of practical applications for all the new features Written by Connie Morrison a university instructor of Microsoft applications this book will help you grow into a confident Word 2007 user The book assumes familiarity with Word 2003 or earlier versions so you can work effectively with the material here Overall this book cuts to the chase by skipping over basic or obvious features to get you up and running with Word 2007 in the shortest possible time

Access 2007: The Missing Manual Matthew MacDonald, 2006-12-29 Compared to industrial strength database products such as Microsoft's SQL Server Access is a breeze to use It runs on PCs rather than servers and is ideal for small to mid sized businesses and households But Access is still intimidating to learn It doesn't help that each new version crammed in yet another set of features so many in fact that even the pros don't know where to find them all Access 2007 breaks this pattern with some of the most dramatic changes users have seen since Office 95 Most obvious is the thoroughly redesigned user interface with its tabbed toolbar or Ribbon that makes features easy to locate and use The features list also includes several long awaited changes One thing that hasn't improved is Microsoft's documentation To learn the ins and outs of all the features in Access 2007 Microsoft merely offers online help Access 2007 The Missing Manual was written from the ground up for this redesigned application You will learn how to design complete databases maintain them search for valuable nuggets of information and build attractive forms for quick and easy data entry You'll even delve into the black art of Access programming including macros and Visual Basic and pick up valuable tricks and techniques to automate common tasks even if you've never touched a line of code before You will also learn all about the new prebuilt databases you can customize to fit your needs and how the new complex data feature will simplify your life With plenty of downloadable examples this objective and witty book will turn an Access neophyte into a true master
