

## Ch. 12 Study Guide

1. How can communicable diseases be prevented?  
Through proper handwashing education and testing.
2. Describe the three stages of an HIV infection.  
The three stages of human immunodeficiency virus (HIV) include acute HIV infection: develops within 2 to 4 weeks after infection with HIV. During this time, some people have flu-like symptoms, such as fever, headache, and rash. In the acute stage of infection, HIV multiplies rapidly and spreads throughout the body  
chronic HIV infection: During this stage, HIV continues to multiply in the body but at very low levels. People with chronic HIV infection may not have any HIV-related symptoms  
acquired immune deficiency syndrome: final, most severe stage of HIV infection. Because HIV has severely damaged the immune system, the body cannot fight off opportunistic infections

All of the following are ways HIV can be transmitted except:

- a. HIV-positive mother breastfeeding her infant
  - b. Kidney transplant from an HIV-positive donor
  - c. Drinking from the same cup as an HIV-positive person
  - d. HIV-positive female that delivers a baby via c-section
3. Why are youth at a greater risk for HIV infection?
  4. Which of the following STDs can be cured? (selected all that apply)
    - a. HPV
    - b. Syphilis
    - c. Gonorrhea
    - d. Hepatitis B
    - e. Chlamydia
  5. Explain how gonorrhea can lead to pelvic inflammatory disease (PID) in women.  
PID happens when bacteria moves from your vagina and cervix to other parts of your body. It can lead to chronic pain and other serious health problems, like infertility.
  6. Why is tertiary syphilis a bigger concern in developing countries than it is in the United States?

Mitchell, Diane Vizine-Goetz, 2013-05-13 Can the Dewey Decimal System meet the needs of the rapidly changing information environment Moving Beyond the Presentation Layer explores the Dewey Decimal System from a variety of perspectives each of which peels away a bit of the presentation layer the familiar linear notational sequence to reveal the content and context offered by the DDS Library professionals from around the world examine how the content and context offered by the DDS can evolve to meet the needs of the changing information environment with a special focus on the impact of the Internet on current and future developments Moving Beyond the Presentation Layer examines whether the Dewey Decimal System is a rigid structure best suited to a physical information environment or a polymorphic one that can be adapted to meet a variety of physical and virtual needs This unique book reviews the 40 year history of the online use of classification systems the development of the Relative Index over 22 editions of the DDC recommendations to ensure the viability of the DDC in a time of mass digitization using DDS in an environment where it hasn't been used before teaching the DDS special issues related to the use of the DDS in Europe North America and Africa and the future of online classification Topics examined in Moving Beyond the Presentation Layer include using the DDC as the browsing mechanism for resource discovery classification as an online cataloging tool classification as an online end user tool browser behavior in a DDC based Web service the role of the DDS in the ongoing HILT High Level Thesaurus project using the DDS to organize Web resources localization and interoperability in knowledge organization mapping terminologies to classification systems the DeweyBrowser and much more Moving Beyond the Presentation Layer is an essential professional resource for librarians information scientists computer scientists and metadata and Web services specialists

**1917** David Stevenson, 2017-09-29 1917 was a year of calamitous events and one of pivotal importance in the development of the First World War In 1917 War Peace and Revolution leading historian of World War One David Stevenson examines this crucial year in context and illuminates the century that followed He shows how in this one year the war was transformed but also what drove the conflict onwards and how it continued to escalate Two developments in particular the Russian Revolution and American intervention had worldwide repercussions Offering a close examination of the key decisions Stevenson considers Germany's campaign of unrestricted submarine warfare America's declaration of war in response and Britain's frustration of German strategy by adopting the convoy system as well as why paradoxically the military and political stalemate in Europe persisted Focusing on the abdication of Tsar Nicholas II on the disastrous spring offensive that plunged the French army into mutiny on the summer attacks that undermined the moderate Provisional Government in Russia and exposed Italy to national humiliation at Caporetto and on the British decision for the ill fated Third Battle of Ypres Passchendaele 1917 offers a truly international understanding of events The failed attempts to end the war by negotiation further clarify the underlying forces that kept it going David Stevenson also analyses the global consequences of the year's

developments showing how countries such as Brazil and China joined the belligerents Britain offered responsible government to India and the Allies promised a Jewish national home in Palestine Blending political and military history and moving from capital to capital and between the cabinet chamber and the battle front the book highlights the often tumultuous debates through which leaders entered and escalated the war and the paradox that continued fighting could be justified as the shortest road towards regaining peace

**The Performing Pianist's Guide to Fingering** Joseph Banowetz, 2021-02-09  
The Performing Pianist's Guide to Fingering the much anticipated companion to Joseph Banowetz's The Pianist's Guide to Pedaling provides practical fingering solutions for technical musical passages Banowetz contends that fingering choices require much thought and consideration and that too often these choices are influenced by historical traditions and ideas rather than by actual performance conditions By returning to the unedited original compositions he strives to help the advanced pianist think through the composer's musical intent and the actual performance tempo and dynamics when selecting the fingering Banowetz also includes valuable contributions by Philip Fowke who examines redistributions by Benno Moiseiwitsch in Rachmaninoff's compositions and Nancy Lee Harper who explores the often very different approaches to fingering found in keyboard music of the Baroque era The Performing Pianist's Guide to Fingering will be useful to the advanced pianist and to instructors looking to guide students in improving this important art

**Research Methods for International Human Rights Law** Damian

Gonzalez-Salzberg, Loveday Hodson, 2019-06-13 The study and teaching of international human rights law is dominated by the doctrinal method A wealth of alternative approaches exists but they tend to be discussed in isolation from one another This collection focuses on cross theoretical discussion that brings together an array of different analytical methods and theoretical lenses that can be used for conducting research within the field As such it provides a coherent accessible and diverse account of key theories and methods A distinctive feature of this collection is that it adopts a grounded approach to international human rights law through demonstrating the application of specific research methods to individual case studies By applying the approach under discussion to a concrete case it is possible to better appreciate the multiple understandings of international human rights law that are missed when the field is only comprehended through the doctrinal method Furthermore since every contribution follows the same uniform structure this allows for fruitful comparison between different approaches to the study of our discipline

**Dangerous Ambition** Susan Hertog,2011-11-08 Born in the 1890s on opposite sides of the Atlantic friends for more than forty years Dorothy Thompson and Rebecca West lived strikingly parallel lives that placed them at the center of the social and historical upheavals of the twentieth century In Dangerous Ambition Susan Hertog chronicles the separate but intertwined journeys of these two remarkable women writers who achieved

unprecedented fame and influence at tremendous personal cost American Dorothy Thompson was the first female head of a European news bureau a columnist and commentator with a tremendous following whom Time magazine once ranked alongside Eleanor Roosevelt as the most influential woman in America Rebecca West an Englishwoman at home wherever genius was spoken blazed a trail for herself as a journalist literary critic novelist and historian In a prefeminist era when speaking truth to power could get anyone of either gender ostracized blacklisted or worse these two smart self made women were among the first to warn the world about the dangers posed by fascism communism and appeasement But there was a price to be paid Hertog shows for any woman aspiring to such greatness As much as they sought voice and power in the public forum of opinion and ideas and the independence of mind and money that came with them Thompson and West craved the comforts of marriage and home Torn between convention and the opportunities of the new postwar global world they were drawn to men who were as ambitious and hungry for love as themselves Thompson to the brilliant volatile and alcoholic Nobel Prize winner Sinclair Lewis West to her longtime lover H G Wells the lusty literary eminence whose sexual and emotional demands doomed any chance they may have had at love Tragically both arrangements produced troubled sons whose anger and jealousy at their mothers iconic fame eroded their sense of personal success Brimming with fresh insights obtained from previously sealed archives this penetrating dual biography is a story of twinned lives caught up in the crosscurrents of world events and affairs of the heart and of the unique trans Atlantic friendship forged by two of the most creative and complex women of their time
