extensive engineering training I initially favored a focus on utility in my cookie design. A microwaveable cookie, a cookie in the shape of an ice cream cone, and a cookie spoon were among the designs of marketable product-based cookies. I have spent the past few summers developing microwave susceptors for food products like Nestle Hot Pockets at a microwave packaging company. I wanted to make a microwave-based cookie that didn't need an oven because of my technical background in this area. Sadly, the first experiments with this idea resulted in an unpalatable cookie. I went back to my original fruit-based ideas after spotting a pattern in the cookie quality that correlated with a change in the cookie method.
