50 Problem-solving Lessons Marilyn Burns, 1996 For many years Marilyn Burns has produced a newsletter for teachers Each newsletter contains classroom tested activities from teachers across the country This compilation presents the newsletters best problem solving lessons for grades 1-6 The lessons span the strands of the math curriculum and are illustrated with children's work

Multiplication & Fractions Denise Gaskins, 2016-11-09 Rescue your child from math phobia by playing games You'll love these math games because they give your child a sturdy foundation for understanding multiplication and fractions Help your child master the times tables and build mental math skills Play with advanced concepts such as division fractions decimals and multi-step calculations

Multiplication Fractions features 25 kid-tested games offering a variety of challenges for upper elementary and middle school students Chapters include Mathematical Models Learn to picture multiplication and fractions in a way that supports your child's comprehension Conquer the Times Tables Enjoy practicing the math facts until correct answers become automatic Mixed Operations Give mental muscles a workout with games that require number skills and logical thinking Fractions and Decimals Master equivalent fractions work with decimal place value and multiply fractions and decimal numbers Math games prevent math anxiety Games pump up your child's mental muscle reduce the fear of failure and generate a positive attitude toward mathematics Parents can use these games to enjoy quality time with your children Classroom teachers like them as warm-ups and learning center activities or for a relaxing review day at the end of a term If you are a tutor or homeschooler make games a regular feature in your lesson plans to build your students' math skills So what are you waiting for Clear off a table grab a deck of cards and let's play some math

Enriching Your Math Curriculum Lainie Schuster, 2010 Presents practices and routines designed to support and nourish teachers as they prepare and present a meaningful year of mathematics instruction for fifth grade mathematicians Offers activities lessons and narration that can be easily adapted or adjusted to fit the particular needs of the students or the requirements of a prescribed curriculum

Fostering Children's Mathematical Power Arthur J. Baroody, Ronald T. Coslick, 1998-09-01 Teachers have the responsibility of helping all of their students construct the disposition and knowledge needed to live successfully in a complex and rapidly changing world To meet the challenges of the 21st century students will especially need mathematical power a positive disposition toward mathematics curiosity and self-confidence facility with the processes of mathematical inquiry problem solving reasoning and communicating and well-connected mathematical knowledge an understanding of mathematical concepts procedures and formulas This guide seeks to help teachers achieve the capability to foster children's mathematical power the ability to excite them about mathematics help them see that it makes sense and enable them to harness its might for solving everyday and extraordinary problems The investigative approach attempts to foster mathematical power by making mathematics

instruction process based understandable or relevant to the everyday life of students Past efforts to reform mathematics instruction have focused on only one or two of these aims whereas the investigative approach accomplishes all three By teaching content in a purposeful context an inquiry based fashion and a meaningful manner this approach promotes children s mathematical learning in an interesting thought provoking and comprehensible way This teaching guide is designed to help teachers appreciate the need for the investigative approach and to provide practical advice on how to make this approach happen in the classroom It not only dispenses information but also serves as a catalyst for exploring conjecturing about discussing and contemplating the teaching and learning of mathematics **Writing in Math Class** Marilyn Burns,1995

Writing in Math Class presents a clear and persuasive case for making writing a part of math instruction Author and master teacher Marilyn Burns explains why students should write in math class describes five different types of writing assignments for math and offer tips and suggestions for teachers In her usual engaging style Marilyn Burns tells what happened in actual classrooms when writing was incorporated into math lessons Illustrated throughout with student work With a foreword by Susan Ohanian *Celebrating Poetry Across the K-12 Curriculum* Napoli, Mary,Day, Deanna,Ward, Barbara A.,2025-07-16

Poetry provides opportunities to explore the universal and common experiences that connect us as human beings When teachers infuse poetry into their classroom it can foster compassion develop interdisciplinary connections and support literacy instruction However not all teachers use poetry in their classroom either because they are not aware of the value of poetry or because they have not had positive experiences with poetry Given the importance of sharing poetry with today s youth educators must feel confident in evaluating well written poetry and how to weave poetry from award winning poets to support interdisciplinary connections Celebrating Poetry Across the K 12 Curriculum aims to ensure that poetry for children is not neglected as part of the curriculum and to help educators feel more confident in their understanding of children s poetry its relevance to children s lives and its importance to supporting pedagogical connections Featuring interviews with well known poets this resource also showcases the latest pedagogical and scholarly research supporting the integration of poetry in the K 12 classroom Covering topics such as science content romanticism and diversity recognition this book is an excellent resource for educators classroom teachers literacy specialists librarians professionals researchers scholar academicians and more *Physical Activity and Learning After School* Paula J. Schwanenflugel,Phillip D.
